# INTRODUCTION

The DeKalb County 2050 Comprehensive Development Plan is a key part of the DeKalb County 2050 Unified Plan and includes policies and recommendations created to guide decision making related to development and growth within DeKalb County. As stated in the Georgia Department of Community Affairs guidance for Local Comprehensive Planning:

"Comprehensive planning should be conducted in the context of Georgia's strong and vibrant intergovernmental system that clearly recognizes the important role cities and counties play in fostering the state's image as an attractive place to invest, conduct businesses and raise a family. Comprehensive planning enhances coordination at many

levels. The highest and best use of comprehensive planning for local governments is to show important relationships between community issues. A local comprehensive plan is a fact-based resource for local constituents that tracks implementation of community-based policies. Furthermore, local comprehensive planning creates an environment of predictability for business and industry, investors, property owners, tax payers and the general public. In addition, the plan helps local governments to recognize and then implement important economic development and revitalization initiatives. For these reasons, the state finds that well-planned communities are better prepared to attract new growth in a highly competitive global market."

The DeKalb 2050 Comprehensive Plan was developed with extensive outreach to and input from the community, stakeholders, elected and appointed officials and DeKalb County staff. The following sections include:

- ► Issues, opportunities and goals
- ► Land use and development policies
- ▶ Transportation
- ► Economic development
- ► Housing recommendations and policies, as well as other newly identified policy and issue areas that were identified as critical to the future of DeKalb County.

Finally, the Comprehensive Development Plan includes a Report of Accomplishments summarizing accomplishments since the last plan was adopted, a new Community Work Program, that identifies implementation activities, and a Public and Stakeholder Outreach Summary provides an overview of outreach techniques and results from this comprehensive planning process.

# ISSUES, OPPORTUNITIES, & GOALS

The Issues and Opportunities in the following pages have been identified as the key areas DeKalb County should focus on over the short-term, or the next five years. The Issues and Opportunities also build upon the list identified in the previously adopted Comprehensive Plan and other recent planning efforts. These critical areas of focus have been used to develop the Community Work Program in **Chapter 8**.

Community Goals and Policies, in addition to the Character Areas and Defining Narrative, set the longer-term strategy for development and growth within DeKalb County. These provide overall policy direction and guidance for elected officials, appointed officials and staff. Issues and Opportunities, as well as the Community Goals and Policies, were developed with input from the Community, stakeholders, elected and appointed officials and DeKalb County staff. Policy areas for which specific issues, opportunities, and goals have been identified include:

- Land Use
- Natural Resources and Sustainability
- Housing
- Economic Development
- Transportation
- Equity
- Arts, Culture, & Historic Resources
- Community Health, Wellness, & Safety
- Coordination and Communication

# **LAND USE**

#### Issues

- In order to support continued growth and development within the County while protecting existing single-family areas, new and more intense development will be focused within activity centers, nodes, and corridors.
- Many residents feel that some corridors and retail centers have uses that do not meet the needs of nearby residential neighborhoods.
- Some major corridors have a high percentage older retail strip commercial centers that are in decline or underutilized.
- Many neighborhoods lack a sense of place or identity.
- There is a need for adequate transitions and buffers between activity centers and surrounding single-family neighborhoods.
- Some areas are experiencing challenges related to industrial and residential land use conflicts
- There is not enough industrial zoned land to meet market demand.
- Annexations have impacted County land use policy which may require updating to reflect current conditions and needs of the community.

Figure 1: Many older strip-center developments, such as this plaza along Memorial Dr, are declining and in need of redevelopment

# **Opportunities**

- The location of underutilized strip commercial centers will allow for redevelopment along major corridors without intruding into established residential neighborhoods.
- Declining and underutilized strip commercial centers provide an opportunity for redevelopment and mixed use.
- A zoning code can address density and design concerns.
- The County is undergoing Gateway and Branding implementation of the Memorial Drive Revitalization Plan to identify character in the neighborhood.
- Many activity centers can transition into highly desirable mixed-use and multimodal environments, particularly those with approved Livable Centers Initiative (LCI) studies or Small Area Plans (SAPs).
- Concentrating future development and density within activity centers can help protect existing single-family areas.
- Additional plans and policies for industrial areas can support the growth of employment areas, while protecting existing, stable single-family neighborhoods.
- The increased acceptance and demand for Transit Oriented Development (TOD) supports redevelopment around existing MARTA stations.
- Recent freight area studies have identified improvements and solutions for existing, growing industrial areas.
- Increased density is acceptable in many areas if needed transportation and infrastructure investments are made.

### Goals

#### New Development

Focus new development and density in existing activity centers, near transit stations, and high-capacity corridors.

#### Commercial Corridors

Encourage reinvestment or redevelopment of commercial corridors including the introduction of residential or other new uses to these areas.

# Single-Family Neighborhoods

Continue to protect existing, stable single-family neighborhoods, while identifying locations for appropriate infill development.

# Density Transitions

Manage height and density transitions between densely developing areas and surrounding lower density residential neighborhoods.

# Diverse Housing and Development

Encourage more diverse housing and development types to meet the changing needs of residents and communities.

### ► Land Use and Economic Policies

Coordinate with Decide DeKalb to ensure economic development is informed by land use and development policies and that policies appropriately support economic development efforts.

Figure 2: New townhomes incorporate live/work principles at a neighborhood scale

Figure 3: Apartments incorporated into a walkable retail development adds new housing options to the neighborhood

# NATURAL RESOURCES AND SUSTAINABILITY

#### Issues

- ► The amount of remaining, undeveloped land and natural greenspace within the County is decreasing.
- The county needs to preserve open space and its critical environmental areas.
- Some neighborhoods desire more small and local park/greenspace options.
- Adequate maintenance of County parks and greenspace is a concern for many residents and stakeholders.
- Residents in some parts of the county have raised concerns over stormwater runoff and sewer capacity problems as more intense developments have increased around their neighborhoods.
- Non-point source pollution and stormwater runoff are major concerns.
- For many years, the County's water and sewer capacity have been unknown, creating uncertainty around current and future development needs.
- While the County has policies and programs related to sustainability, there is no unified vision or strategy.

# Opportunities

- DeKalb County has a greenspace program that, coupled with private development and other stakeholders, could protect some of the County's remaining undeveloped greenspace.
- The county is dedicated to using Best Management Practices (BMP) to reduce the impact of stormwater runoff and non-point source pollution.
- The County has recently developed a plan and a strategy for dealing with previous uncertainty around water and sewer availability.
- The County currently is designated as a bronze level ARC Green Community.

Figure 5: Keswick Park in Chamblee is connected to a community trail system and accessible from nearby development

Figure 4: Median breaks allow stormwater to drain while reducing water volicity

Figure 6: Westside Park in Atlanta is an example of strategic infrastrcuture investment, serving as both a recreational facility and an emergency water reservoir for the community

#### Preservation

Encourage the preservation of the County's limited remaining open space, farmland, natural and critical environmental areas.

# Environmental Sensitivity

Protect environmentally sensitive areas including wetlands, floodplains, water supply watersheds and stream corridors.

# Develop more Neighborhood Parks

Increase the number of parks within neighborhoods that are easily accessible to nearby residents.

# Acquisition of Open Space

Continue coordination with Recreation, Parks & Cultural Affairs to facilitate open-space acquisition and expansion

# Sustainable Zoning

Utilize zoning tools and techniques that preserve open space, natural resources and the environment, and address resiliency.

#### Private Partnerships

Partner with nongovernmental organizations to acquire and protect land.

# Sustainable and Conservation Development

Promote development that incorporates sustainable practices and conserves critical environmental areas.

#### Stormwater Management

Encourage techniques to reduce storm water runoff and other drainage issues as part of development activities.

# Education

Educate the development community and the public on strategies and solutions for addressing water and sewer capacity concerns within the County.

#### Vision

Develop a unified vision and strategy for sustainability related initiatives within DeKalb County.

# HOUSING

#### Issues

- The location of affordable housing is often away from major amenities, employment centers and high-income neighborhoods.
- Many subdivisions built over the last 30 years are in need of increased upkeep, maintenance or rehabilitation.
- The existing housing stock may not be meeting the demands of the current market, or current and future residents.
- DeKalb is in need of additional market rate housing.
- With increased infill development, there is added development pressure near existing, stable single-family neighborhoods.

Figure 7: Affordable Housing should be high quality, and located throughout the county

Figure 8: Zero-lot line housing can increase FAR and units closer to development nodes, increasing the housing supply

# **Opportunities**

- DeKalb has proximity to downtown Atlanta and many growing in-town neighborhoods.
- FAR and housing types are increasing within some new developments allowing for more housing options.
- New and diverse housing types will help the County meet market demands and support continued growth.
- Areas of existing, naturally occurring affordable housing present a unique opportunity to preserve affordability within the County.
- Clearly stated policies on transitions and buffers between areas of higher and lower density can provide guidelines that address concerns and set better expectations.

Figure 9: Older homes in established neighborhoods offer more affordable quality housing options for residents, compareed to new construction

### Goals

# Housing Variety and Choice

Focus new development and intensity in existing activity centers, near transit stations, and high-capacity corridors.

# Workforce Housing

Encourage reinvestment or redevelopment of commercial corridors including the introduction of residential or other new uses to these areas.

#### Senior and Independent Living

Continue to protect existing, stable single-family neighborhoods, while identifying locations for appropriate infill development.

### Mixed Use Developments

Manage height and density transitions between densely developing areas and surrounding lower density residential neighborhoods.

# Multi-Family Housing

Encourage more diverse housing and development types to meet the changing needs of residents and communities.

# Housing Strategy

Coordinate with Decide DeKalb to ensure economic development is informed by land use and development policies and that policies appropriately support economic development efforts.

### ► Fair Housing

During the rezoning process, prevent the occurrence of discrimination in housing on the basis of age, race, religion, gender, or national origin.

# Code Compliance

Improve the enforcement of building codes and standards to improve housing conditions within aging multifamily housing developments.

# **ECONOMIC DEVELOPMENT**

# **Issues**

- There is public concern that more innovative economic development needs to take place.
- Some parts of central and south DeKalb lack adequate retail and employment options.
- DeKalb's economic growth has been uneven and primarily in north DeKalb and parts of central DeKalb.
- Incorporations and annexations have impacted unincorporated DeKalb's tax base and service delivery.
- There are limited locations in the County for industrial development or expansion

# **Opportunities**

- Due to its proximity to Hartsfield-Jackson Atlanta International Airport, interstates and major freight corridors, Southwest
- DeKalb has logistics and distribution opportunities. The DeKalb Development Authority (Decide DeKalb) is a key partner in implementing economic development activity.
- DeKalb is home to several strong, nationally recognized medical, educational and research institutions.
- The increased acceptance and demand for Transit Oriented Development (TOD) has increased redevelopment opportunities around existing MARTA stations.
- The film industry continues to expand in Georgia and DeKalb County.

#### Goals

The goals listed are from the Strategic Economic Development Plan (SEDP) and are most relevant to the comprehensive plan.

# Coordinate Regulatory Processes

Match land use regulations to economic development vision, and continue to build a more predictable and consistent review and approval processes

# Support Existing Businesses

Engage and support more existing businesses, and use Incentives to support existing industry clusters and prime locations to create new ones

# Foster Business Development

Create a supportive environment to foster startup businesses

#### Target Industries

Create specific incentives for target industries, and implement a proactive target industry recruitment effort. Increase efforts to develop international business opportunities

#### Invest in Infrastructure

Continue implementing existing infrastructure strategies

#### Create Development Plans

Formalize economic development concepts for each employment center, and clearly define implementation roles for all parties

Figure 10: DeKalb-Peachtree Airport is a major economic asset for the county

# **BROADBAND**

#### Issues

Not enough people in south portion of DeKalb County know about broadband capabilities in their neighborhood.

# **Opportunities**

DeKalb provides broadband service to well over 90% of it's citizens. The county will work to market the service on the county website.

Figure 11: Blackhall Film studios is part of the burdgeoning Atlanta Film industry, which has become a major employment generator

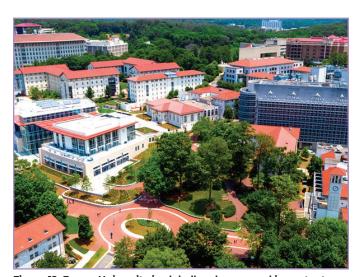

Figure 12: Emory University is globally reknown and important education asset

### Goals

- Broadband and Activity Centers
  - Market Broadband coverage in Activity Centers to attract redevelopment partners and startup businesses
- Broadband Marketing

Over 98% of DeKalb County has broadband access. And nearly 70% of DeKalb County has high speed broadband access. These factors should be used to attract investment from business, education, and healthcare sectors.

# **TRANSPORTATION**

#### Issues

- Traffic congestion and commute times, especially around high growth areas, could impact future development and zoning decisions.
- Some areas of higher residential or employment density are not adequately served by public transportation.
- Pedestrian and/or bike connectivity is lacking, along major corridors, between new developments, neighborhoods, retail centers, parks and institutions and attractions.
- Many neighborhoods are dealing with cutthrough traffic with limited tools to address the issue beyond speed bumps.
- Some areas of the County have dilapidated roadways and other infrastructure in need of repair
- While the County has several rail stations and higher frequency bus routes, additional transit investments are needed to support existing development and future growth.
- While the County has a transit master plan, decisions need to be made on which scenario should be pursued and funding needs to be identified
- There is no unified vision or strategy for trail or greenway development within DeKalb County.

# **Opportunities**

- DeKalb has significantly increased the amount of parks and its trail network around and between existing neighborhoods.
- DeKalb's existing trails and greenways provide key connections and improve quality of life
- The County now has SPLOST which can support expanded transportation investments and maintenance.
- The County now has a transit master plan with four possible transit scenarios.

Figure 13: Indian Creek Station is the terminal station on MARTA's East-West heavy rail line, and an anchor for the Indian Creek Regional Activity Center

Figure 14: A comprehensive plan to connect trails thoughout the county could increase mobility and provide alternative transportation options for county residents

# Provide Transportation Options through Connectivity Across Modes

Improve travel for all users by increasing connections across roadway, transit, bicycle, and pedestrian modes.

# Promote Equity

Prioritize improvements that increase transportation access to all parts of the County, especially communities where lack of transportation options creates substantial barriers.

#### Improve Safety

Provide for safe travel by users across all modes of transportation.

# Enable Healthy Communities and Improve Quality of Life

Leverage transportation infrastructure to encourage an active lifestyle and overall improved quality of life.

# Respect/Improve DeKalb County's Character

Implement transportation projects that improve mobility while taking into consideration local community context.

#### Increase Access to Jobs and Education

Prioritize transportation investments that allow workers and students to more easily access these key destinations.

### **▶** Better Accommodate the Movement of Goods

Implement transportation projects that improve freight in the County either by truck or by rail.

#### Improve Maintenance

Ensure the long-term care for existing infrastructure including paving roads and repairing bridges and signal systems.

# Increase Funding for Improvements

Pursue new local revenue sources that will allow the County to implement additional transportation projects.

#### Encourage Economic Development

Leverage transportation projects that help to encourage revitalization and new development throughout the County.

# Practice Fiscal Responsibility in Transportation Investments

Prioritize transportation projects that can be implemented in a reasonable timeframe and provide a strong return on investment.

of central and south DeKalb County.

# **EQUITY**

#### Issues

- Poverty rates have increased in certain sections
- ► The senior population is expected to continue to increase and require more housing and service options.
- Gentrification continues to displace seniors and low-income residents
- There is a perception that many within the immigrant and refugee communities in DeKalb do not feel included or connected to decision making or the broader community.

# **Opportunities**

- The cost of living is relatively low in many parts of the county compared to the entire region.
- DeKalb's diverse population and cultural diversity allow for a wide range of social, cultural, and economic opportunities.
- The County is one of the most diverse communities in Metro Atlanta, the Southeast, and the Country, which provides the County with an international and multicultural character and offerings.

### Goals

# Aging Population

Support the aging population by creating more opportunities for residents to age in place through the addition of senior housing and coordinated services and programs.

### Immigrant and refugee Community Inclusion

Establish a committee or working group focused on communicating with and including immigrant and refugee communities in planning and decision making in their community.

#### Povertv

Work with community-based organizations and non-profits to address issues around poverty, educational attainment, and other issues facing disadvantaged communities.

#### Low Broadband Coverage Areas

The Georgia Broadband Deployment Initiative has identified low or no coverage areas within the county. DeKalb County will develop partnerships to address these areas.

#### Broadband Service Areas

Identify Unserved Locations within Service Areas and target them through collaboration with governments, educational/institutional entities, and private sector partners.

# Issues Opportunities

- There are many historic register eligible sites that need to be evaluated for historic designation and protection.
- ► The County lacks a unified vision on arts and culture support, investment, and planning
- Many residents travel outside DeKalb County for arts and cultural offerings.
- There are tools in place to preserve the County's historic districts.
- DeKalb County includes many unique arts and cultural experiences and organizations, many of which are not widely known within or outside the County.
- The expanding film industry can support local artists and arts organizations.

### Goals

#### ► Historic Preservation

Preserve and protect the historic character of the County including historically, culturally or architecturally significant sites.

#### Development

Maintain the character of historic areas while accommodating new residential development.

### Analysis

Complete a County-wide Historic Resource Survey

#### Historical Sites

Identify additional historically significant sites and institute "formal protection" through the adoption of local historic designation and ordinances.

#### Zoning

Establish new and enforce ordinances to protect historic areas.

#### Open Space and Agricultural Preservation

Encourage the preservation of the few remaining rural areas, forested areas, and agricultural structures or sites within the County.

#### Cultural Events

Establish programs and events that celebrate the unique cultures found in DeKalb. Identify community organizations to partner with on these programs or events.

### Arts Support

Develop a strategy to better coordinate arts related initiatives and support local artists and arts organizations within DeKalb.

# **COMMUNITY HEALTH, WELLNESS, & SAFETY**

#### Issues

- Many areas still lack access to greenspace, greenways, healthy food options, etc.
- Some areas of the County have real or perceived safety issues.
- Many dilapidated commercial areas need stronger enforcement of building codes and standards.
- ► Illegal dumping has become an issue in some areas of the County, especially areas with high vacancy and disinvestment.

# **Opportunities**

- DeKalb's existing parks and trails offer opportunities for recreation and active living.
- The County offers many health and wellness programs that could reach more residents with additional coordination and marketing.

Figure 15: DeKalb's Mobile Wellness Clinic helps address health issues in underserved communities

# Goals

#### Food Access

Work with public, private and non-profit partners to address challenges related to access to healthy foods within some areas of DeKalb.

# Quality of Life

Improve quality of life by increasing the number of sidewalks and trails that connect homes to regional trail networks, nearby businesses, schools, parks and other community services and amenities.

#### Active Living

Create communities designed to encourage active living and healthy lifestyles

# Crime and Safety

Work across departments, with public safety partners and local community organizations to address safety issues including adequate pedestrian facilities and lighting, cut-through and speeding in residential areas, and within areas of high crime.

#### Code Enforcement

Enforce existing building codes and other ordinances to address safety issues related to dilapidated or abandoned structures and illegal dumping,

# Issues

# **Opportunities**

- Historically there has been a lack of communication between DeKalb County Government and the DeKalb School District.
- Communication between DeKalb County and its municipalities could be improved.
- New incorporations and annexations have impacted DeKalb County's service delivery, as well as planning and economic development efforts.
- ► There is a perceived lack of communication between DeKalb County and County residents and stakeholders.

- Land use, economic development, transportation and bicycle and pedestrian planning could be improved with increased coordination between DeKalb County and its municipalities.
- Increased coordination between DeKalb County and its municipalities, specifically in areas of recent or future annexations would benefit residents of all DeKalb communities.
- Creating regular and sustained methods of communication with residents and stakeholders will build community involvement, community support and ultimately implementation.
- Former DeKalb County school sites present a unique opportunity for public and private investment.
- Increased coordination around existing DeKalb County schools may provide unique solutions to community, transportation, or safety issues.

# Goals

### City-County Coordination

Encourage better communication and coordination between County and City staff around issues related to land use, transportation, and other relevant issues.

# Joint Planning

Consider joint planning initiatives with municipalities to adequately plan for and coordinate land use, development, transportation and other relevant initiatives.

#### School-County Coordination

Encourage better communication and coordination between County and DeKalb County School District (DCSD) staff around issues related to land use and transportation near schools and other DCSD owned land.

# Education

Identify opportunities or programs to educate County residents and stakeholders on planning and development related priorities and issues and current demographic, market or development trends on an ongoing basis.

# Outreach and Involvement

Identify opportunities and events to involve the general public in current planning initiative.

# THIS PAGE LEFT INTENTIONALLY BLANK

# FUTURE LAND USE & DEVELOPMENT

A community's land use patterns both guide and reflect its character and sense of place - what kinds of homes, businesses, institutions, amenities, and natural environments the community has, the forms they take, and where they are located and should be.

The Future Land Use Plan is intended to provide direction for development patterns across the County, and to inform decision making related to timing, phasing, and magnitude of infrastructure investments. These decisions determine the types of places the County's residents can live, the types of jobs that are attracted, and what types of services and amenities are available. They also shape land use patterns and connectivity across the County, which influences how people interact with each other, how they travel to accomplish their daily activities, and their transportation choices and priorities.

This chapter lays the foundation for land use policies and decision making in DeKalb County between today and 2050, and will guide the development of physical infrastructure to accommodate anticipated growth.

# **Future Land Use Plan Key Concepts**

DeKalb County's Future Land Use Plan is predicated on

several key concepts. These include:

- ► Character Areas provide high-level guidance on development character for the County; each Character Area also has it's own sub-principles that guide landuse decisions within the character area's boundaries.
- Activity Centers are a special kind of character area, and serve as one of the lynch-pins of DeKalb County's Land Use strategy, which are intended to serve as hubs of higher intensity and more clustered uses, providing focal points for the community that serve as employment and service destinations.
- Guiding Principles a set of overarching principles that inform decision making and intent across the County.

#### **Character Areas**

DeKalb is a large and diverse County, with varied conditions, character, and land uses across the County. This comprehensive plan is predicated on the concept of character areas, which frame the general use of land envisioned for the neighborhoods and communities across DeKalb. These character areas are intended to describe the overall character, quality, intensity of use, and design of certain area. They identify predominant land uses, as well as supporting uses allowed within each character area.

Character Areas do not directly dictate zoning and design requirements on individual parcels, but rather provide general guidance. This provides flexibility in the zoning and development process and allows the market to shape the location of supporting land uses while providing local communities with protection from potential incompatibilities between adjacent developments. This type of flexibility provides the Future Land Use Plan with the ability needed to respond to changes in community needs, a growing population, and an evolving market.

# **Activity Centers**

Activity Centers are a special type of character area, intended to serve as concentrated nodes of development and activity throughout the County. There are three types; Regional Center, Town Center, and Neighborhood Center, depending on the levels of development intensity and activity and whether the area is intended to serve local neighborhoods or the larger region.

#### **Guiding Principles**

The Guiding Principles are a set of overarching themes that provide guidance and direction for development across DeKalb County. They are aspirational in nature, and serve as a foundation for the County to achieve the vision established by Future Land use Plan. These principles apply in all character areas across the County, and shape the more detailed principles that are outlined in each character area, such as Activity Centers or Traditional neighborhoods.

# **Activity Centers, Nodes, and Corridors**

In order to support continued growth and development within the County while protecting existing single-family areas, new and more intense development will be focused within activity centers, nodes, and corridors.

# Protect Existing Single-Family Neighborhoods

Preserve and enhance the integrity and quality of existing residential neighborhoods through appropriate transitions, buffers, and infill

# **Development Intensity**

Focus new and higher intensity development in existing developed areas, particularly in locations with existing services, facilities, and infrastructure with capacity to support additional development.

# **Density Bonuses**

Provide density bonuses for projects that provide community benefits, such as affordable workforce and senior housing components, pedestrian and bicycle connectivity improvements, or functional green space, and if they do not negatively impact or affect surrounding single-family neighborhoods.

# **Housing Options**

Provide a variety of housing options for County residents at all stages of life. Denser and more innovative housing options should be focused in or near activity centers, nodes, and corridors

# **Environment & Sustainability**

Development should prioritize sustainability and the preservation of DeKalb County's dwindling natural spaces and undeveloped areas and be focused in areas where it will have the least negative impacts to the natural environment.

# Multimodal Development

Reduce Vehicle Miles Traveled by promoting new development and redevelopment at or near activity centers, developing quality bicycle and pedestrian facilities, and providing better transit access

# **Cultural Diversity**

Promote activities to highlight historic and cultural assets in the community and provide opportunities for community interaction.

# **Healthy Neighborhoods**

Promote healthy living in neighborhoods by incorporating a pedestrian environment that encourages socialization, walking, biking and connectivity. Update or implement the recommendations of the Master Active Living Plans (MALPs).

### **Transit Oriented Development**

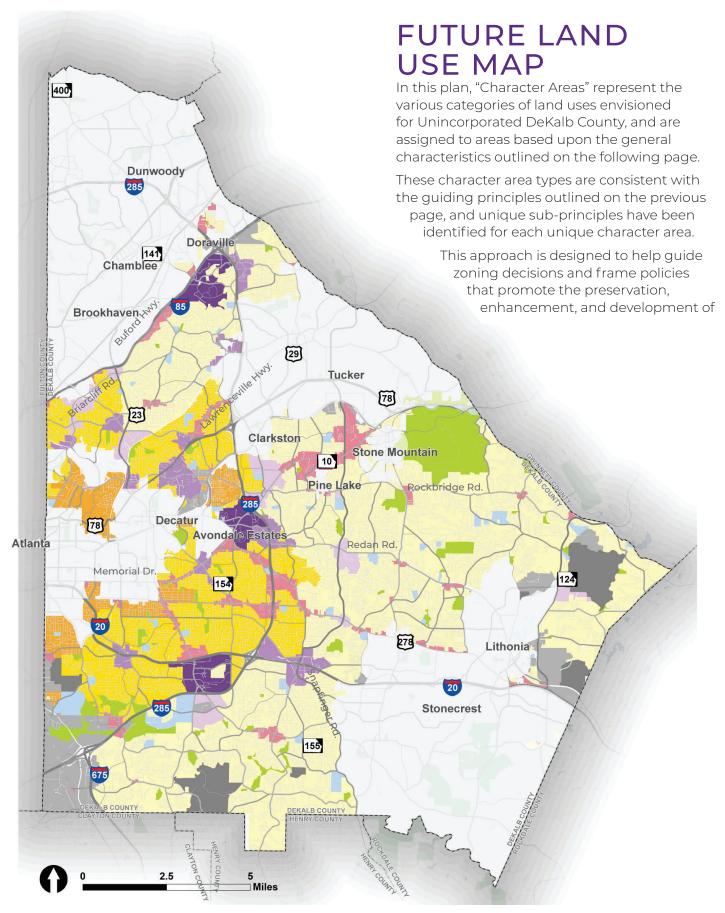

Promote and provide incentives for transit-oriented development near existing rail stations. Identify locations for additional development near planned premium transit stations.

# **Tree & Greenspace Preservation**

Establish tree preservation and landscaping standards. Prioritize the preservation of existing tree canopy and undeveloped areas.

# **REGIONAL CENTER**

#### Density (du/ac)

75 & Over; No Max

#### **Preferred Uses**

Townhomes / Condominiums / Apartments / Retail & Commercial / Office / Civic / Entertainment & Cultural / Parks & Recreation / Health Care / Institutional / Technology Centers

#### Permitted Zoning

All zoning designations

# **ACTIVITY CENTERS**

The foundation of DeKalb County's Future Land Use Plan is to focus more intense development within Activity Centers. This approach is intended to protect existing neighborhoods from incompatible land uses, while allowing for continued growth and investment within the County. This plan identifies three distinct Activity Center Types: Regional Center, Town Center, and Neighborhood Center.

# **Development Core**

Activity Centers should focus the most intense development near the geographic center or around major intersections and transit stations within the area, which is considered the "core" of the Activity Center. Higher residential densities are encouraged here, whether as stand alone or as a component of mixed use development. Development should be more clustered and walkable in nature, and a mix of commercial, office, and urban residential is envisioned. Other elements of urban development can include a more connected street grid, multimodal transportation options such as wide sidewalks and bike lanes, and an enhanced level of urban amenities.

#### **Small Area Plans**

One of the primary tools to guide development within Activity Centers is through the use of Small Area Plans (SAPs). These plans allow policy makers and the community to guide development, policies, and investments at a much finer level of detail than can be provided in the overall comprehensive plan.

SAP's address specific land use issues where needed and support general development policies with detailed design guidelines. They can also control the transitions of land uses between an Activity Center and surrounding land uses, protecting surrounding uses, such as single family development, from negative impacts created by land uses within the area.

# **Transitions**

Development intensity should transition between the activity center's core and the edges/periphery. Smaller scale development, such as residential and low rise professional services may serve as a transition zone between the core and adjacent neighborhoods outside the activity center. Staggered building heights, setbacks, buffers, and greenspaces can serve as effective tools to mitigate compatibility issues.

#### Infrastructure

Activity Centers can take advantage of limited public dollars by focusing infrastructure needs and investments in smaller geographic areas. Focusing infill in both existing and emerging activity centers can reduce both initial investments and long term maintenance costs for the County, particularly when infrastructure can be combined with community amenities, such as the integration of stormwater infrastructure with usable community greenspace.

# REGIONAL CENTER

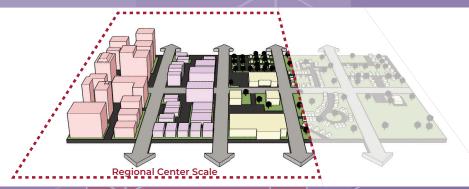

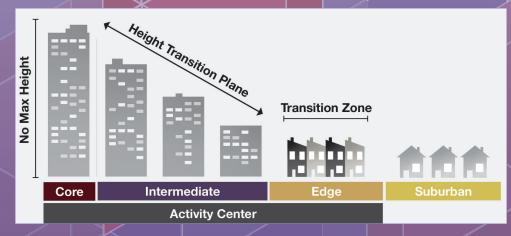

# Description

The intent of the Regional Activity Center is to promote the concentration of intensity, development and regional serving activities in a centralized location that allows for a variety of uses, reduces dependency on automobile travel, and promotes walkability and increased transit usage. These areas include the highest intensity residential, commercial, office, and higher-education facilities allowed within DeKalb County and serve as regional destinations for employment, shopping, and services. These areas are characterized by high accessibility via the interstates and major roadways, transit, and trails. The areas also have on-site parking, high floor-arearatios, large tracts of land, and campus or unified development.

# **Regional Center**

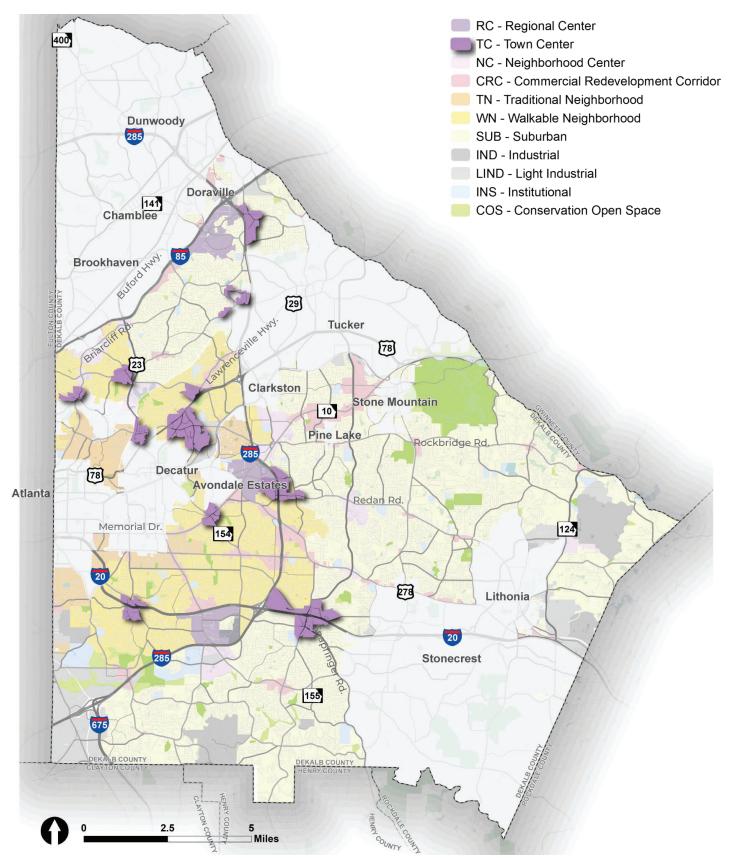

Encourage density of residential in mixed-use projects at 75 dwelling units or greater and with the most intense development located towards the commercial and/or office core of the Regional Center. Properties located along the outer edges of the Regional Center should be sensitive to the building height and density of adjacent single family residential.

# **Height Transition**

The most intense development types and tallest buildings should be concentrated in the core of the activity center, gradually transitioning to less intense uses and lower building heights as one moves further from the core. The edge of the activity center should serve as a transition zone, buffering more intense uses in the core from adjacent single-family neighborhoods and other uses outside the Activity Center's boundaries.

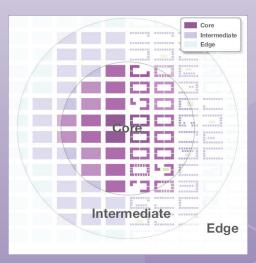

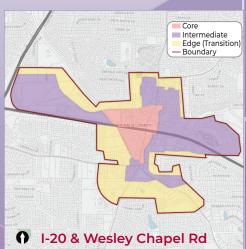

# **TOWN CENTER**

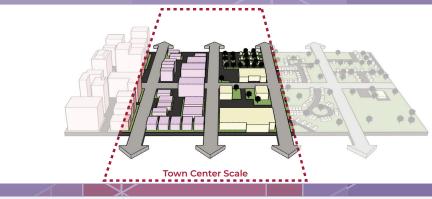

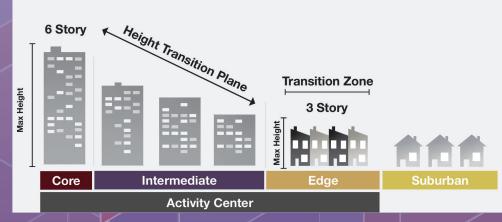

# Description

The intent of the Town Center is to promote the concentration of higher intensity residential and commercial uses, which serve several communities surrounding the center, in order to reduce automobile travel, promote walkability and increased transit usage. The areas act as a focal point for several neighborhoods with moderate densities and a variety of activities such as retail, commercial, professional office, higher-density housing, and public open space that are all easily accessible by pedestrians. Town Centers are typically smaller in size and scale than Regional Centers and have a character similar to Neighborhood Centers, but at a larger scale. Additional density beyond the identified baseline may be allowed if there is an adopted small area plan for the activity center that is no more than 10 years old. At a minimum, the small area plan should include a process to engage nearby residents and stakeholders, identify where core, intermediate, and edge areas are located and include additional detail on the location of heights and densities that will allow for appropriate transitions to any adjacent, stable, single-family neighborhoods.

# **Town Center**

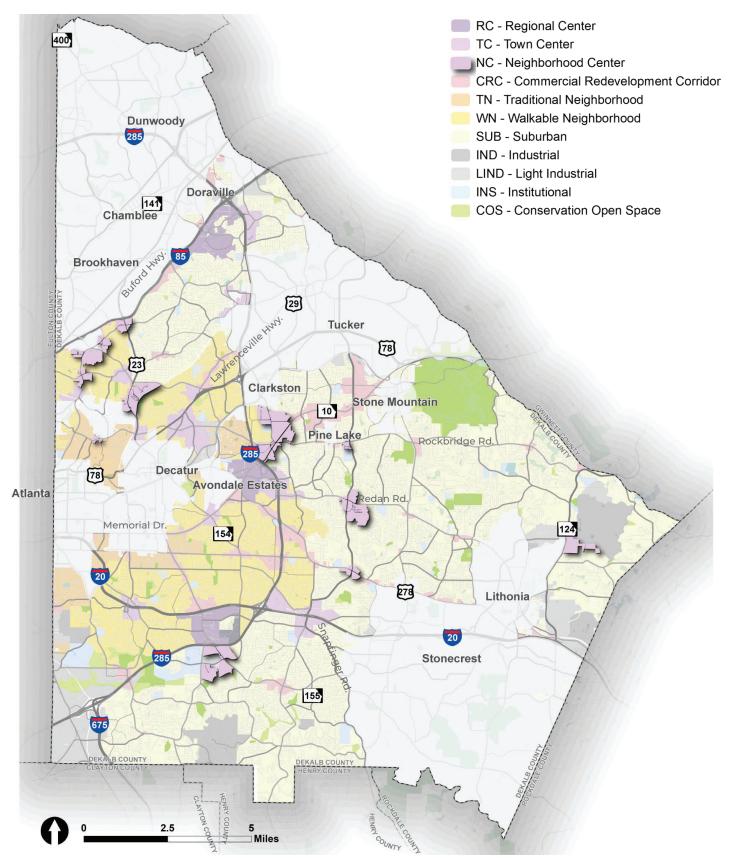

Encourage density of residential in mixed-use projects, not to exceed 60 dwelling units per acre (except in locations with an approved SAP providing other guidance) and with the most intense development located towards the commercial and/or office core of the Town Center. Properties located along the outer edges of the Town Center shall be sensitive to the building height and density of adjacent single-family residential

# **Height Transition**

The most intense development types and tallest buildings should be concentrated in the core of the activity center, gradually transitioning to less intense uses and lower building heights as one moves further from the core. The edge of the activity center should serve as a transition zone, buffering more intense uses in the core from adjacent single-family neighborhoods and other uses outside the Activity Center's boundaries.

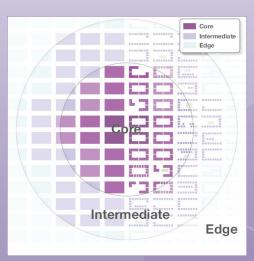

# **NEIGHBORHOOD CENTER**

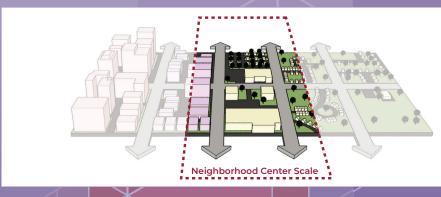

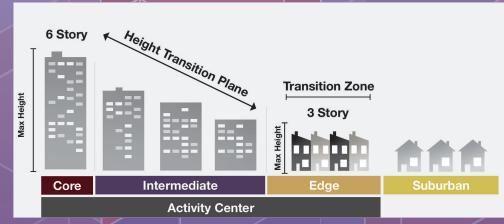

# Description

The intent of the Neighborhood Center Character Area is to promote a concentration of clustered residential and commercial uses that serve the goods and service needs of a few surrounding, local neighborhoods. These areas and their uses shall complement the smaller scale character of nearby neighborhoods while reducing automobile travel and promote walkability and increased transit usage. These areas act as a neighborhood focal point with a concentration of activities including retail, neighborhood commercial, professional office, moderate-density housing, and public open space that are all easily accessible by pedestrians. Neighborhood Centers are often the smallest Activity Centers in terms of size and scale. Additional density beyond the identified baseline may be allowed if there is an adopted small area plan for the activity center that is no more than 10 years old. At a minimum, the small area plan should include a process to engage nearby residents and stakeholders, identify where core, intermediate, and edge areas are located and include additional detail on the location of heights and densities that will allow for appropriate transitions to any adjacent, stable, single-family neighborhoods.

# **Neighborhood Center**

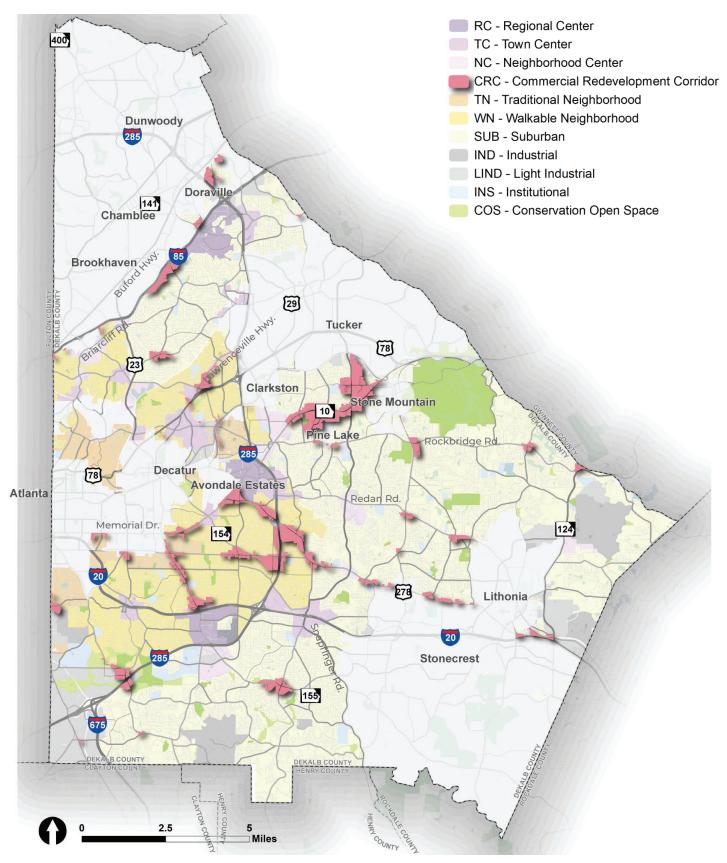

Encourage compact residential in mixed-use projects, not to exceed 40 dwelling units per acre, (except in locations with an approved SAP providing other guidance). Concentrate the most intense commercial and/or office development around a focal point at the core of the neighborhood center. Properties located along the outer edges of the Neighborhood Center shall be sensitive to the building height and density of adjacent single family residential.

# **Height Transition**

The most intense development types and tallest buildings should be concentrated in the core of the activity center, gradually transitioning to less intense uses and lower building heights as one moves further from the core. The edge of the activity center should serve as a transition zone, buffering more intense uses in the core from adjacent single-family neighborhoods and other uses outside the Activity Center's boundaries.

# COMMERCIAL REDEVELOPMENT CORRIDOR

- ▶ Townhomes
- ▶ Condominiums
- Apartments
- Retail and Commercial
- ▶ Office Mixed Use
- ▶ Institutional

# Description

This Character Area is intended to improve the function and aesthetic appeal of commercial corridors in the County and promote the redevelopment of commercial corridors in decline. Today, these areas predominantly consist of strip-style shopping centers, and are often characterized by high levels of vehicular traffic, surface parking, large parcel sizes, and a general lack of pedestrian and bicycle connectivity. Because development is oriented along a corridor rather than a larger development core, floor-area-ratios should be moderate, with a maximum density of 30 dwelling units per acre and a maximum height of 3 stories.

# Land Use Compatibility

Transition zones and height planes should focus the most intense development away from adjacent lower density development. When adjacent to single-family areas, development should complement those uses in height and density.

# **Buffers**

Require the incorporation of enhanced vegetated buffers between non-residential uses and adjacent single-family areas.

# **Development**

Where appropriate, new development should be built closer to the street, on underutilized parking lots, and create new internal streets and smaller blocks. Create compact, walkable, mixed-use districts to reduce automobile dependency for short trips and increase access to basic services.

# Streetscapes & The Public Realm

Improve the pedestrian environment and community character with consistent sidewalks, signage, lighting, landscaping, billboard controls, and other design features where possible.

# **Multimodal Connectivity**

Provide safe and attractive facilities for pedestrians and bicyclists, including sidewalks, multi-use paths, cycle tracks, bike lanes and bicycle parking, that link community amenities and transit.

# **Parking and Access**

Create access management standards, encourage shared parking, and locate parking to the rear or side of buildings, screened from view

# **Existing Residential**

Some locations also include naturally occurring affordable housing. This housing should be preserved or improved, or replaced at the same level of affordability.

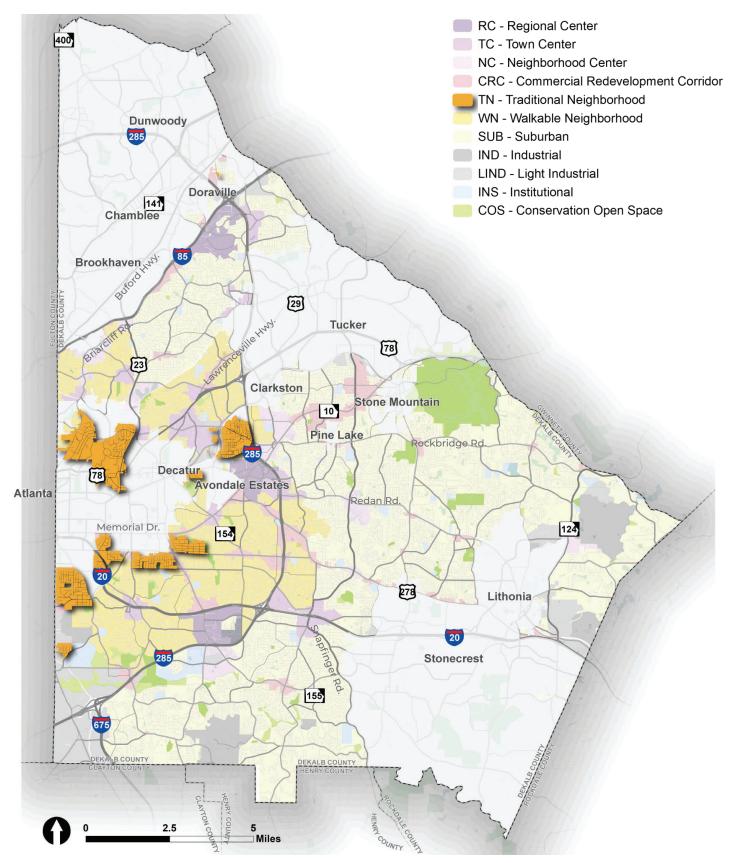

# **Regulatory Standards**

Develop Architectural Standards to upgrade the appearance of existing older commercial buildings with facade improvements.

## **Small Area Plans**

Small Area Plans (SAPs) allow policy makers and the community to guide development, policies, and investments at a much finer level of detail than can be provided in the overall comprehensive plan. For areas with an approved SAP, additional density may be allowed.

# TRADITIONAL NEIGHBORHOODS

- Traditional Single-Family Homes
- Apartments
- Assisted Living
- Neighborhood Retail
- ▶ Schools
- Institutional

# Description

The intent of the Traditional Neighborhoods Character Area is to preserve the style and appeal of older traditional neighborhood communities. These areas primarily consist of residential areas in older parts of the community that were typically developed prior to WWII. The characteristics include higher pedestrian orientation, sidewalks and more grid-like street patterns. They have on-street parking, small, regular lots, and buildings closer to the front property line. Many of these areas have a predominance of alleys and neighborhood-scale commercial scattered throughout. The proposed density for areas of this type is up to 12 dwelling units per acre, with potential to increase to 16 if qualifying conditions are met.

# Land Use Compatibility

Permit cottage court developments, accessory housing units, new well-designed, small-scale infill multi-family residences and other innovative housing types to increase housing choice, income diversity, and limited neighborhood density.

### Buffers

In areas adjacent to Activity Centers, require the transition from higher to lower densities to occur within Activity Center

# Development

Create community and neighborhood focal points through the use of existing commercial areas or public parks, or by locating new parks or public squares, schools, community centers, or well-designed small commercial centers at suitable locations within walking distance of residences. Create compact, walkable, mixed-use districts to reduce automobile dependency for short trips and increase access to basic services.

# Streetscapes & The Public Realm

Create an enhanced sense-of-place by using design principles that promote good streetscapes and a strong public realm.

# **Multimodal Connectivity**

Enhance connectivity by providing pedestrian and bicycle infrastructure, high levels of street connectivity, multiple site access points, and connections between

adjacent subdivisions, properties, and retail/commercial development.

# Parking and Access

Where appropriate, require new streets to connect to adjacent street networks or developments and minimize or prohibit cul-de-sacs.

# **Regulatory Standards**

Encourage compatible architecture styles that maintain or compliment neighborhood character and enforce residential infill development regulations in to preserve and stabilize existing neighborhoods

# **Additional Density**

Additional density up to a total of 16 units per acre may be allowed if certain qualifying conditions are met, which can include:

### **Location Conditions**

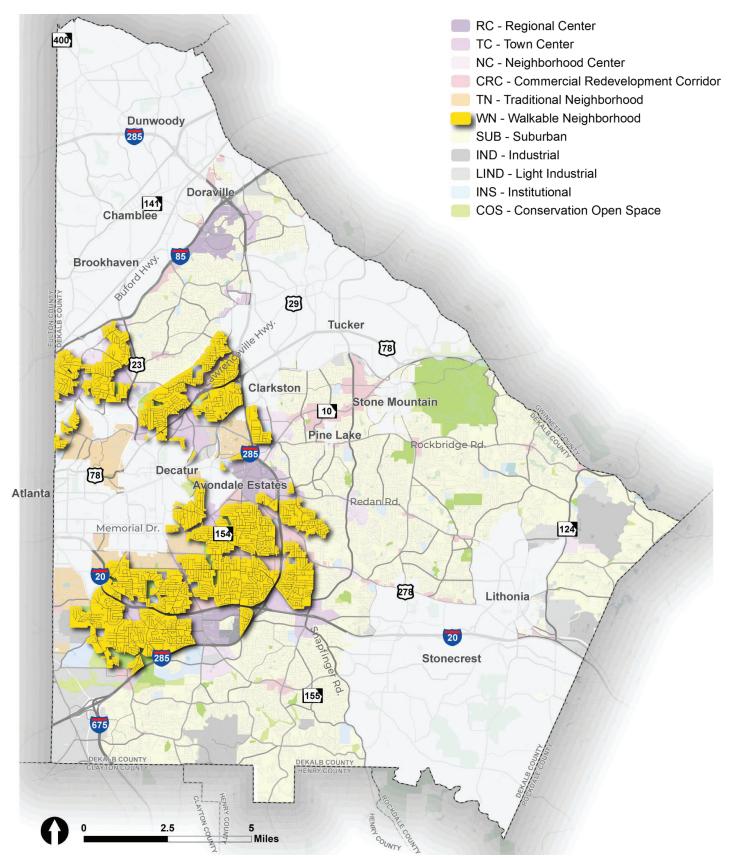

- Along major corridors or arterials
- Within ¼ mile of an existing transit station or served directly by transit
- Located near existing sidewalk network or trail facilities

### **Development Conditions**

- Connectivity to existing or planned trails and sidewalk networks
- Potential inclusion of workforce housing as identified in county housing studies
- Improved transit amenities in coordination with transit provide

# WALKABLE NEIGHBORHOODS

- ► Traditional Single-Family Homes
- ▶ Apartments
- Assisted Living
- Neighborhood Retail
- ▶ Schools
- Institutional

# **Description**

The intent of the Walkable Neighborhoods Character Area is to preserve existing, stable neighborhoods, while allowing and encouraging additional, appropriate infill and housing diversity. These areas primarily consist of residential areas in older parts of the community that were typically developed from the 1950s to the 1970s. Walkable Neighborhood areas have been developed with elements of both the Traditional Neighborhood and Suburban character areas. This area is includes smaller lot sizes and more connectivity than Suburban areas. The proposed density for areas of this type is up to 8 dwelling units per acre, with potential to increase to 12 if qualifying conditions are met.

# Land Use Compatibility

Permit small scale infill such as cottage court development, accessory housing units, small-scale infill and other innovative housing types to increase housing choice and income diversity without significantly altering established neighborhood development patterns.

# **Buffers**

In areas adjacent to Activity Centers, require the transition from higher to lower densities to occur within Activity Center

### Development

Create community and neighborhood focal points through the use of existing commercial areas or public parks, or by locating new parks or public squares, schools, community centers, or well-designed small commercial centers at suitable locations within walking distance of residences.

### Mixed-Use and Non-Residential

Allow limited non-residential development, such small mixed-use developments outside of existing, stable single-family neighborhoods, particularly in locations with high levels of pedestrian connectivity, to meet the needs of surrounding residents.

# Streetscapes & The Public Realm

Create an enhanced sense-of-place by using design principles that promote good streetscapes and a strong public realm.

# **Multimodal Connectivity**

Enhance connectivity by providing pedestrian and bicycle infrastructure, high levels of street connectivity, multiple site access points, and connections between adjacent subdivisions, properties, and retail/commercial development.

# **Parking and Access**

Where appropriate, require new streets to connect to adjacent street networks or developments and minimize or prohibit cul-de-sacs.

### Regulatory Standards

Encourage compatible architecture styles that maintain or compliment neighborhood character and enforce residential infill development regulations in to preserve and stabilize existing neighborhoods.

### **Additional Density**

Additional density up to a total of 12 units per acre may be allowed if certain qualifying conditions are met, which can include:

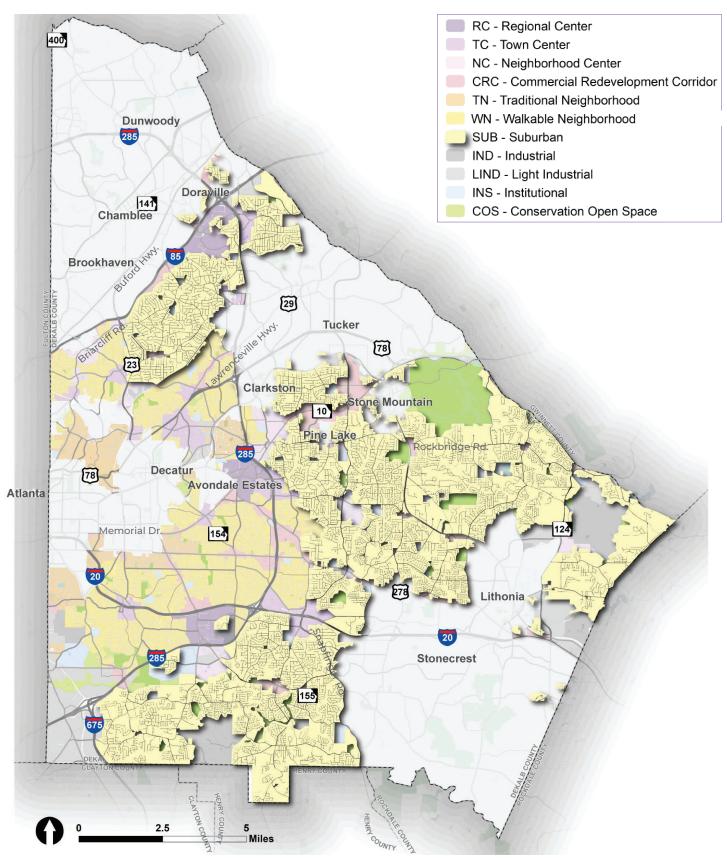

### **Location Conditions**

- Along major corridors or arterials
- Within ¼ mile of an existing transit station or served directly by transit
- Located near existing sidewalk network or trail facilities

### **Development Conditions**

- Connectivity to existing or planned trails and sidewalk networks
- Potential inclusion of workforce housing as identified in county housing studies
- Improved transit amenities in coordination with transit provide

# **SUBURBAN**

- Single-Family Detached Townhomes Neighborhood
- ► Retail
- ▶ Schools
- Libraries
- ▶ Institutional
- Assisted Living Facilities
- Parks and Related
- ▶ Health Care
- ► Civic

# Description

The intent of the Suburban Character Area is to recognize those areas of the county that have developed in traditional suburban land use patterns while encouraging new development to have increased connectivity and accessibility. These areas include those developed (built out) and those under development pressures. These areas are characterized by low pedestrian orientation, limited transit access, scattered civic buildings and curvilinear street patterns. The proposed density for areas of this type is up to 8 dwelling units per acre.

# Land Use Compatibility

Protect stable neighborhoods from incompatible development that could alter established single-family residential development patterns and density

## **Buffers**

In areas adjacent to Activity Centers, require the transition from higher to lower densities to occur within Activity Center

# Development

Create community and neighborhood focal points through the use of existing commercial areas or public parks, or by locating new parks or public squares, schools, community centers, or well-designed small commercial centers at suitable locations within walking distance of residences.

# Mixed-Use and Non-Residential

Non residential development in suburban areas shall be limited to small-scale convenience goods/services to meet the needs of the surrounding residents. Small scale nonresidential development shall be limited to the intersections of collector roadways and above.

# Streetscapes & The Public Realm

Create an enhanced sense-of-place by using design principles that promote good streetscapes and a strong public realm. This may include elements such as onstreet parking, pedestrian and bicycle infrastructure, traffic calming measures, and reduced building setbacks. It may also include public parks and plazas, street trees, and other amenities such as street furniture, lighting, signage, and public art.

# **Multimodal Connectivity**

Enhance connectivity by providing pedestrian and bicycle infrastructure, high levels of street connectivity, multiple site access points, and connections between adjacent subdivisions, properties, and retail/commercial development.

# **Parking and Access**

Where appropriate, require new streets to connect to adjacent street networks or developments and minimize or prohibit cul-de-sacs.

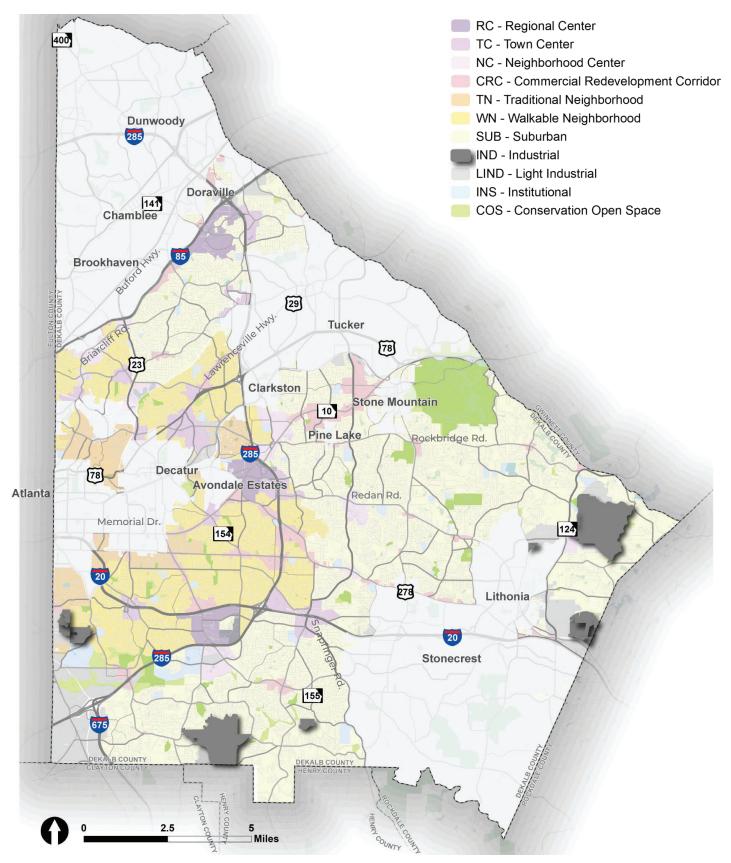

# **Public Greenspaces & Parks**

Whenever possible, greenspace should connect to a regional network of natural areas or otherwise adjacent greenspace. This may include trails and greenways. Encourage the preservation and integration of existing natural areas into new and existing residential areas

# **Regulatory Standards**

Encourage compatible architecture styles that maintain or compliment neighborhood character and enforce residential infill development regulations in to preserve and stabilize existing neighborhoods

# **INDUSTRIAL**

- Manufacturing
- ► Warehouse Distribution
- ► Wholesale-Trade
- Automotive
- Entertainment

# Description

The intent of the Industrial Character Area is to identify areas that are appropriate for more intense industrial and industrial related uses. The location of these uses shall be such as to protect residential and commercial areas from potential disturbances generated by industrial land uses. These areas consist of land used in higher intensity manufacturing, assembly, processing activities where noise, vibration and air pollution or other nuisance characteristics are not contained on-site.

# Land Use Compatibility

Protect existing and undeveloped land zoned as industrial from intrusion by conflicting land uses. Limit conflict between Industrial and other uses by preventing the encroachment of industrial uses into established residential areas outside of identified industrial areas, and prohibiting the introduction of new residential development within industrial areas.

# **Buffers**

Incorporate landscaping, vegetated buffers and other site design elements to soften or shield views of buildings and parking lots and mitigate potential impacts from industrial areas.

# Infrastructure

Provide appropriate infrastructure support for industrial development in designated industrial areas, and retrofit existing or planned industrial areas with adequate water, sewer, stormwater, and transportation infrastructure for all component uses at build-out

# Development

Locate industrial centers in areas with good access to interstates, truck routes, and direct industrial development to existing industrial districts, especially sites with limited negative environmental impacts.

# Streetscapes & The Public Realm

Improve safety and community character by providing consistent lighting and landscaping, particularly street trees, along public right-of-way

# **Parking and Access**

Provide access controls and management standards in compliance with the DeKalb County Transportation Plan. Designate truck routes to reduce noise, pollutants and traffic congestion in residential areas.

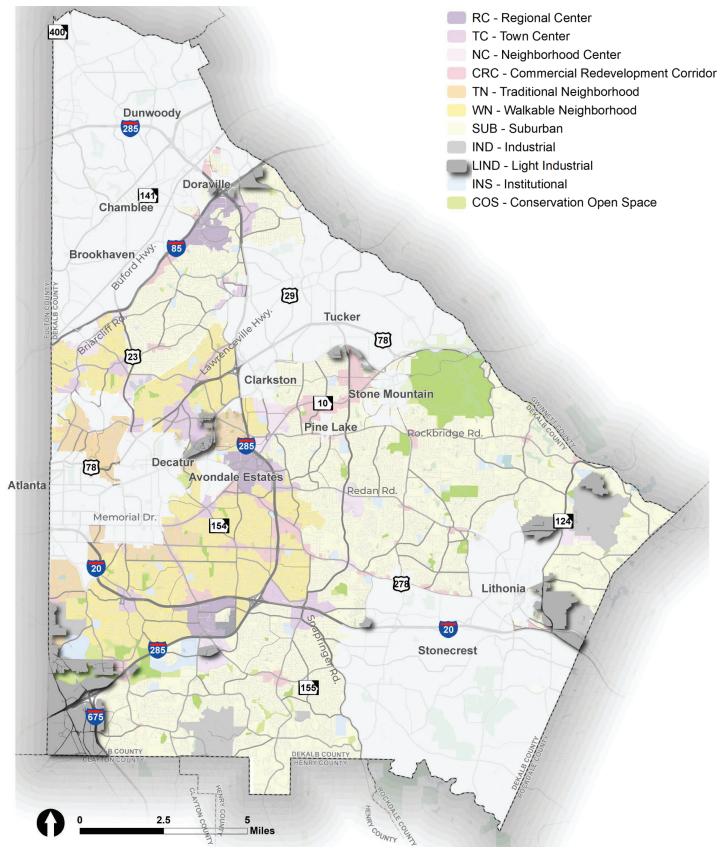

# Small Area Plans (SAPS)

Conduct small area plans and freight cluster studies to better define industrial areas and address transitions and traffic impacts.

# **Regulatory Standards**

Designate specific areas for industrial development through the use of zoning and other land use tools. Create and implement zoning and development regulations for industrial uses.

# LIGHT INDUSTRIAL

- Warehouse Distribution
- ▶ Wholesale-Trade
- Automotive
- Entertainment

# Description

The intent of the Light Industrial Character Area is identity areas appropriate for industrial type uses. The location of these areas shall preserve the appeal and appearance of residential and commercial areas from the prospective intrusion of light industrial land uses. These areas consist of areas used in low intensity manufacturing, including wholesale trade, and distribution activities that do not generate excessive noise, vibration, air pollution or other nuisance characteristics.

# Land Use Compatibility

Allow light industrial uses such as breweries, maker space, set design and fabrication and other similar uses in commercial areas, and encourage Light Industrial development where it can serve as a buffer between Industrial areas and commercial or residential areas.

## **Buffers**

Incorporate landscaping, vegetated buffers and other site design elements to soften or shield views of buildings and parking lots and mitigate potential impacts from industrial areas.

# Infrastructure

Provide appropriate infrastructure support for industrial development in designated industrial areas, and retrofit existing or planned industrial areas with adequate water, sewer, stormwater, and transportation infrastructure for all component uses at build-out

# Development

Locate industrial centers in areas with good access to interstates, truck routes, and direct industrial development to existing industrial districts, especially sites with limited negative environmental impacts.

# Mixed-Use and Non-Residential

Allow for the integration of appropriate light industrial uses, such as breweries, maker spaces, or live/work, into new mixed use and re-purposed development

# Streetscapes & The Public Realm

Improve safety and community character by providing consistent lighting and landscaping, particularly street trees, along public right-of-way

# **Parking and Access**

Provide access controls and management standards in compliance with the DeKalb County Transportation Plan. Designate truck routes to reduce noise, pollutants and traffic congestion in residential areas.

# Small Area Plans (SAPS)

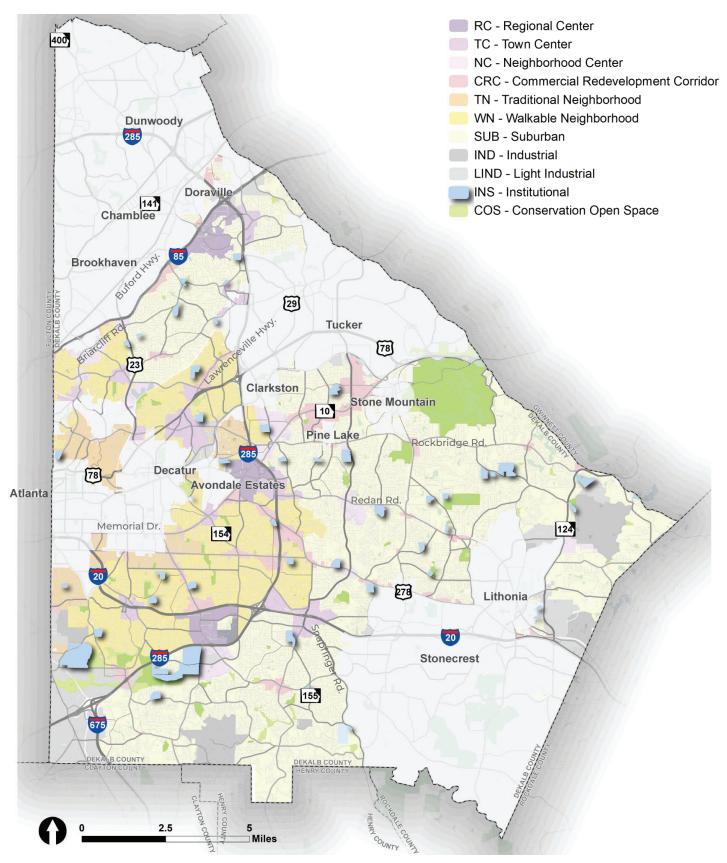

Conduct small area plans and freight cluster studies to better define industrial areas and address transitions and traffic impacts.

# **Regulatory Standards**

Designate specific areas for industrial development through the use of zoning and other land use tools. Create and implement zoning and development regulations for industrial uses.

# INSTITUTIONAL

- ► Universities, schools
- ▶ Public Facilities
- ▶ Government Offices
- Libraries
- Courthouses

# Description

The intent of the Institutional Character Area is to designate specific areas that provide institutional services. These areas consist of large areas used for religious, civic, educational and governmental purposes. Those smaller areas with similar purposes have been integrated into the rural, suburban and traditional neighborhood character areas as secondary uses and are considered residential support uses.

# **Land Use Compatibility**

Ensure that institutional developments include appropriate transitions to nearby lower density residential areas.

## Infrastructure

Locate new institutional developments in areas with direct access to existing infrastructure

# Development

Provide opportunities for the development of institutional uses within the County.

# Mixed-Use and Non-Residential

Integrate institutional uses into compact, mixed-use districts where possible to integrate with the surrounding community, increase access, and reduce automobile dependency for short trips.

# Streetscapes & The Public Realm

Ensure that institutional investments contribute to the public realm by incorporating good placemaking and streetscaping elements, such as public spaces, street furniture, and multimodal accessibility to adjacent areas and transit facilities

# **Multimodal Connectivity**

Provide transportation alternatives to reduce automobile dependency including access to biking, pedestrian, and transit infrastructure.

# **Parking and Access**

Create and implement driveway controls and access management standards.

# **Public Greenspaces & Parks**

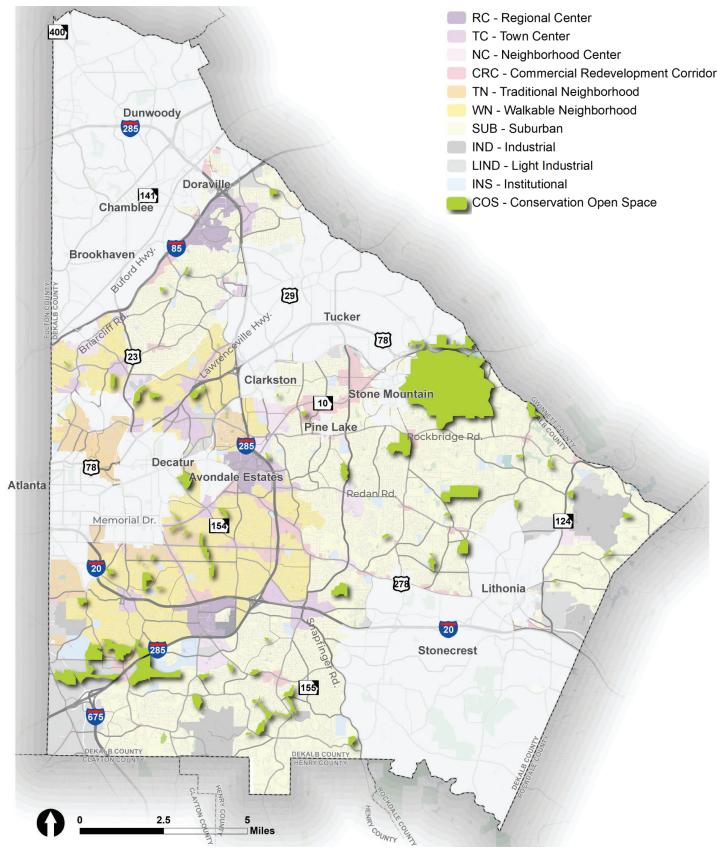

Consider integrating and combining public open spaces with institutional uses, such as public plazas in front of public buildings

# **Partnerships**

Coordinate and combine institutional uses where possible to promote partnerships between agencies and institutions

# CONSERVATION OPEN SPACE

- Passive Parks
- Nature Trails
- ► Floodplains
- Wetlands
- ▶ Watersheds
- ▶ Golf Courses
- ▶ Athletic Fields
- Amphitheaters

# Description

The intent of the Conservation and Open Space Character Area is to preserve areas in the county with significant natural and ecological features, as well as environmentally sensitive recreational facilities for public enjoyment. These areas consist of un-developed natural lands, environmentally sensitive and conservation areas that are not suitable for development. It also includes land used for active recreational purposes that provide for a wide range of activities with some land designated for cultural and historic preservation.

# Land Use Compatibility

Design, implement and enforce land use and zoning tools that preserve conservation lands, green space, and water resources. Limit land uses within and near established preservation areas to compatible activities.

### Buffers

Consider using conservation areas and open spaces as buffers between incompatible land uses, such as industrial and residential areas

# Infrastructure

Inventory the amount and quality of remaining, undeveloped green spaces within the County. Identify areas such as unused or excess right-of-way and redevelopment areas to be used for greenspace. Consider using greenspace as passive infrastructure, such using parks to store stormwater overflow

# Development

Require that usable, functional greenspace and open space is set aside for all major developments. Promote the development of communities that feature greenspace and neighborhood parks. Identify strategic greenspace acquisition and utilize innovative partnerships or financing tools for conservation and greenspace preservation.

# Streetscapes & The Public Realm

Provide wayfinding/markers and signage along trail

routes, as well as appropriate pedestrian and bicycle infrastructure, such as lighting, benches, and bike racks.

# **Multimodal Connectivity**

Increase the amount, quality, connectivity and accessibility of greenspace. This may include areas with trails and greenways or natural areas only. Create a network of safe and pleasant trails and greenways.

# **Public Greenspaces & Parks**

Promote conservation and greenspace areas as passive use and recreation destinations, and preserve open space, natural and critical environmental areas throughout the County.

# **Regulatory Standards**

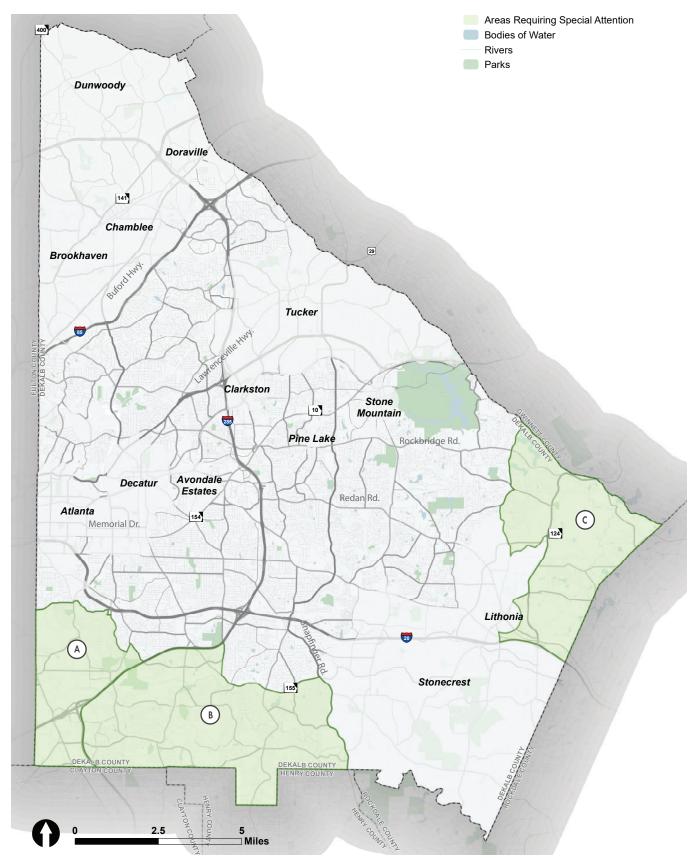

Utilize environmental statutes to protect conservation and green space areas, and protect environmentally sensitive areas including wetlands, floodplains, water supply watersheds, and other water sources.

# **Partnerships**

Coordinate with nongovernmental agencies such as foundations, land trusts, land banks, and other entities to acquire and protect land, and provide a framework for community and voluntary groups to participate in green space acquisition and management. Adopt/Implement the Comprehensive Transportation Plan pedestrian greenway projects, and coordinate environmental protection programs and statutes with the appropriate agencies.

# AREAS REQUIRING SPECIAL ATTENTION

# **Areas Requiring Special Attention**

DeKalb County is fortunate to have numerous areas with unique natural features. Most notable are Stone Mountain, Arabia Mountain and the natural outcroppings in the Lithonia area. However, DeKalb also has many natural features less known such as the South River, Nancy Creek, Snapfinger Creek, Peachtree Creek and a significant tree canopy. Any development proposals in these areas should be considerate of the natural features to ensure that there is a balance between the environment and economic development. The Areas Requiring Special Attention map identifies additional priority areas within which the County should evaluate development proposals for consistency with all environmental, tree protection, stormwater run-off, and water quality related policies to ensure that steps are taken to allow development in an eco-friendly manner. These areas include the South River Forest and corridor both inside and outside Interstate 285, labeled A and B, and the Eastern Conservation Area, labeled C.

The South River Forest area presents several opportunities to develop in a smart and sustainable way, promote economic development, and work to restore, enhance or preserve natural areas along the South River. This area has already experienced development, including residential, commercial, industrial and public facilities such as landfills. There have been several recent development proposals and planning efforts that highlight the opportunity for a coordinated approach.

The Eastern Conservation Area is in the extreme eastern area of DeKalb County and is one of the last areas within DeKalb County with large parcels of undeveloped land. This area presents a unique opportunity for the County to preserve the remaining, dwindling greenspace, some of which includes former agriculture and farmland. The area also includes industrial uses and quarries, thus careful consideration and coordination is needed in this area. One strategy that may be explored includes encouraging conservation community development or clustered development, to allow for the conservation of undeveloped areas. This balanced approach aims to set aside some of the land as greenspace while allowing development to be clustered.

# POLICY SPOTLIGHT ARTS & CULTURE

# **Key Takeaways**

- Designate arts and culture staff
- Create arts and culture organization
- Develop arts and culture master plan
- Additional investment in disadvantaged areas

# FRAMING THE ISSUE

Arts and culture are celebrated and exhibited in numerous areas throughout DeKalb County. The County is home to a diverse collection of organizations, festivals, and institutions, including the Porter Sanford III Performing Arts & Community Center, Callanwolde Foundation, Fernbank Museum of Natural History, Fernbank Museum of Science, the DeKalb Symphony Orchestra, Essential Theatre, Dance 101, Decatur Book Festival, Michael C. Carlos Museum, We Love BuHi, and the Instituto de Mexico. Additionally, located in DeKalb are three K-12 public schools offering an arts-based curriculum, DeKalb Elementary School of the Arts, DeKalb School of the Arts, and the Museum School, and prestigious higher education institutions such as Emory University and Oglethorpe University offering a focus or concentration in arts and culture studies as well as venues.

As a place of deep history, there are 56 districts, buildings, or sites in the County on the National Register of Historic Places (NRHP) representing a diversity of architectural and historical resources. These historical resources provide valuable opportunities to uphold past events and accomplishments that contribute to DeKalb's unique cultural environment today.

Although the County itself does not have an Arts and Culture Plan in place, several cities in DeKalb have developed Arts and Culture and/or public art master plans of their own. This includes Avondale Estates, Brookhaven, Chamblee, Clarkston, Decatur, Doraville, Dunwoody, Pine Lake and Tucker.

### **Focus Areas**

Based on discussions with key arts and culture stakeholders, the following focus areas have been identified.

- ► Facilities There is a lack of a range of event space, limited artist working space, and limited museum and gallery space for permanent and temporary displays.
- Support DeKalb County does not have an organization, department, or staff focused on arts, beyond the DeKalb Entertainment Commission, which is focused on supporting film production.
- Planning Stakeholders noted the need for Arts and Culture planning to be elevated and treated like other priorities like parks, trails, or sidewalks.
- ► Equity While there are significant concentrations of arts and cultural venues in central west DeKalb, there is a need for more venues in other parts of the County.

# **Fulton County**

In 1979, the Fulton County Board of Commissioners established a 15-member Fulton County Arts Council. The Council works with the Fulton County Department of Arts & Culture to assist the Commission in the development of public policy support for the arts industry, makes recommendations to the Commission on funding the arts, and oversees the development and implementation of programs. A five-year Fulton County Cultural Action Plan (2021-2026) was recently adopted to shape the strategic direction of arts planning and programming in the County.

# **Gwinnett County**

ArtWorks! is Gwinnett's unifying arts organization led by a five-member Board of Directors and a nineteen-member community board (named the "Board of Doers"), which is made up of arts, corporate, and public sector representatives. Gwinnett is currently developing a creative economy master plan for the County. This master plan will help provide vision, goals, priorities, and strategic direction for the arts in Gwinnett, with a strong focus on fostering and supporting creative economic sectors.

# **Clayton County**

Arts Clayton is a non-profit that focuses on public-private partnerships to enrich lives in Clayton County through the arts. Since its inception, Arts Clayton has focused on three areas of service which remain the goals of its mission today: support arts education for students in schools at all levels, provide venues and exhibit opportunities for Georgia artists, and promote the arts in community development as a means of strengthening the economic vitality and improving the quality of life.

# RECOMMENDATIONS

The following recommendations represent potential opportunities for DeKalb County to consider in supporting Arts and Culture. These recommendations have emerged through existing conditions analysis, peer example review, and stakeholder and public involvement:

# **Organizational Structure**

# Staffing

Designate a point person within DeKalb County

Government to assist with arts and culture related coordination such as permitting, creating a central database and event calendar; and assisting with cross-promotion of organizations and events.

### **Arts Council**

Create an arts council to advise the Board of Commissioners on arts-related policy and investments.

# **Arts Organization**

Create a public-private Arts and Culture umbrella organization to implement the Arts and Culture initiatives and offer small grants to DeKalb County based artists and organizations.

# **Studies and Plans**

# **Strategic Planning**

Develop an Arts and Culture Master Plan to set a vision and strategically plan for future initiatives.

# Housing

Perform an assessment to determine affordable housing stock for artists as well as affordable workspace. Based on the findings of the assessment.

# **Transportation:**

Include access to arts and culture destinations in multi-modal transportation planning to ensure a variety of alternative and safe avenues for access to these destinations from all parts of the County.

# **Historic Preservation**

Conduct a Countywide historic resource inventory to identify National Register of Historic Places (NRHP) eligible sites, pursue NRHP designation, and adopt local policies to protect these resources.

### **Equity**

In disadvantaged communities or areas with limited resources, pursue opportunities to add arts and cultural facilities, and/or provide incentives for developers to incorporate artist space in their projects.

Leverage the cultural diversity of the County to hold unique events such as night markets, lantern festivals and cultural food truck festivals to enhance, educate, and celebrate local culture.

# POLICY SPOTLIGHT BROADBAND

Table 1 and Figure 4 are a comparative look at broadband access by speed in the Atlanta Metropolitan Area counties. The Atlanta Metropolitan Area is the most densely populated region in the state and is home to many of the state's largest employer's headquarters.

The state of Georgia anticipates continued growth and will continue to attract employers and invest in infrastructure and institutions that aid in the development of start-up businesses. This will include expanding higher speed Broadband.

# FRAMING THE ISSUE

Georgia Senate Bill 402 was enacted in 2018. And from the enactment of this legislation the Georgia Broadband Deployment Initiative (GBDI) was formed. The GDBI coordinates with five (5) state agencies: Georgia Department of Community Affairs, Georgia Department of Transportation, Georgia Department of Economic Development, Georgia Technology Authority, and the State Properties Commission. Additionally, the GBDI also works with a Stakeholders Advisory Council comprised of private sector telecom and cable companies, utility cooperative representatives, and local government officials. The ultimate objective of this effort is serving unserved Georgians.

A primary focus of the State Broadband Plan is to identify, evaluate and recommend options which can be implemented by governments and providers.

# Georgia

According to BroadbandNow, a consumer advocacy website that compiles broadband access data and pricing, Georgia ranks 12th nationally in broadband access.

- 94.1% of Georgians have access to wired broadband 25 mbps or higher.
- 90.8% of Georgians have access to wired broadband 100 mbps or higher
- 40.8% of Georgians have access to 1 gigabit broadband

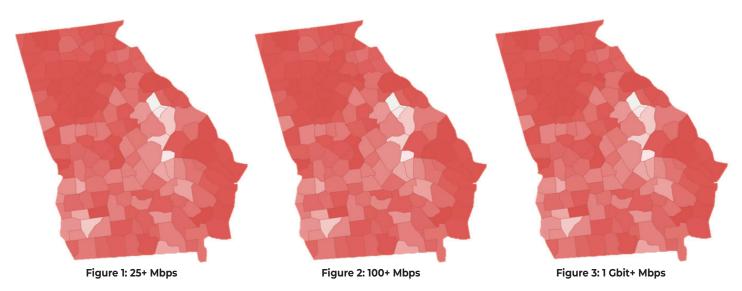

# **DeKalb County**

According to Broadband Now' numbers, DeKalb County's access percentages are as follows:

- 99.4% have access to broadband 25 mbps or higher.
- 99.4% have access to broadband 100 mbps or higher.
- 69.3% have access to 1 gigabit broadband.

Percentage of Citizens with Access to Broadband								
Speeds								
	25+ Mbps	100+ Mbps	1 GbitRoute 186					
Georgia	94.1	90.8	40.8					
DeKalb	99.4	99.4	69.3					
Fulton	98.8	98.6	54					
Gwinnett	99.5	99.5	68.7					
Clayton	99.5	99.3	39.2					
Henry	99.9	99.9	42.6					
Rockdale	99.3	99.3	22.4					
Table 1 – Percentage of Citizens with Access to broadband								

# **BROADBAND COVERAGE BY SPEED IN GEORGIA**

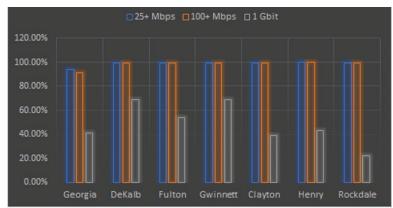

Figure 4: Broadband Access by Percentage

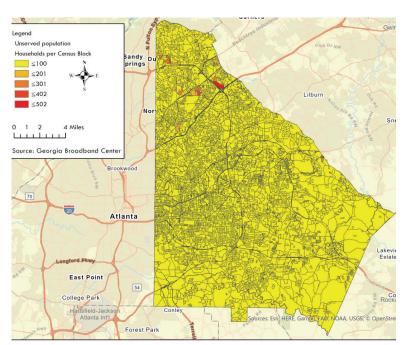

Figure 5: DeKalb County Underserved Census Blocks

The Georgia Broadband Deployment Initiative has used the Census Block Level to identify Broadband service levels. The analysis of service levels in DeKalb County has identified 8,182 Census Blocks that are designated Unserved Locations.

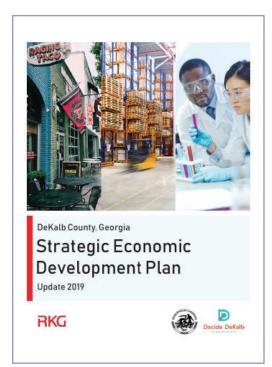

Because Broadband has become essential to business, education, healthcare, agriculture, and overall quality of life, DeKalb County will continue to work to see the 8,182 Census Blocks currently designated as Unserved Locations, significantly reduced, if not eliminated.

To achieve this, DeKalb County Government will need to coordinate with city governments within DeKalb County, DeKalb County School System, DeKalb County Board of Health, Decide DeKalb Development Authority, and state and regional partners to strengthen and expand this vital service.

# **DeKalb County Underserved Census Blocks**

Served & Unserved Areas in Georgia on a fixed, terrestrial broadband definition of 25 Mbps down and 3 Mbps up and where the broadband service is available to all consumers (residential and business). A Census Block is unserved if 20% or greater locations do not have access to the broadband definition.

# POLICY SPOTLIGHT ECONOMIC DEVELOPMENT

# **Key Takeaways**

- Healthcare and Life Sciences
- Corporate Operations and Business Services
- Advanced Manufacturing
- ► Logistics and Distribution

# FRAMING THE ISSUE

In 2014, DeKalb County oversaw the creation of a Strategic Economic Development Plan which provided an overview of DeKalb County's business climate, economic development strengths and weaknesses, and a strategy for achieving economic development goals. One of the key recommendations of that report was the creation of Decide DeKalb.

In 2019, Decide DeKalb commissioned a five-year update to this report to provide a fresh look at the current business climate of DeKalb County. The update was intended to deliver an updated analysis of economic development activity in the county, to establish a revised set of goals for economic development, to identify target industries, and to create a list of action items that the County government can take to meet the economic development challenges that DeKalb County faces.

# Socioeconomic Analysis

DeKalb County is one of the most diverse counties in Georgia, with a significant increase in Hispanic/Latino residents over the last five years. This represents one of the biggest economic development assets the county has. Despite this, overall population growth has slowed compared to neighboring counties, with a growth rate of only 4.6 percent from 2010 to 2016. During this same period, Fulton County experienced a growth rate of 8.3 percent and Gwinnett County experienced a growth rate of 8.6 percent.

The current employment outlook across the county has room for improvement. In general, jobs do not match the level of education across the county. Many residents hold a bachelor's degree, commuting out of the county to work at higher-paying jobs, while less-educated workers commute into the county to fill lower-paying jobs. Wages in the county have risen at the same rate as Metro Atlanta as a whole, but at 2.5 percent the median household income continues to lag behind the statewide average growth rate of 3.4 percent. Additionally, job creation has been slow, with DeKalb's job growth less than half that of surrounding counties.

# **Real Estate Market Analysis**

Like the rest of Metro Atlanta, housing prices and rents have increased in DeKalb. Despite this increase, the county remains a relatively affordable option for residents who want to live close to central Atlanta. However, new housing has been created at a slower pace in DeKalb County than the rest of Metro Atlanta. Protection of this valuable asset will require the creation of new mixed-use development and a variety of housing options.

Examples of multi-family and office development can be seen clustered near Perimeter Mall and many of the county's MARTA stations. These clusters act as anchors for new mixed-

use development and serve as a blueprint for further transit-oriented development in the county. Furthermore, despite its proximity to central Atlanta, DeKalb remains a largely low-density, suburbanstyle community. This means that infill development offers the best opportunity for new development.

Much of the industrial inventory in DeKalb is aging, which limits the ability to grow the lucrative manufacturing, distribution, and logistics industries. These industries currently make up a large sector in DeKalb County's economy. However, new inventory will be needed to continue to attract higher-paying advanced manufacturing jobs, as well as jobs in the rapidly growing distribution industry.

# Target Industry Analysis

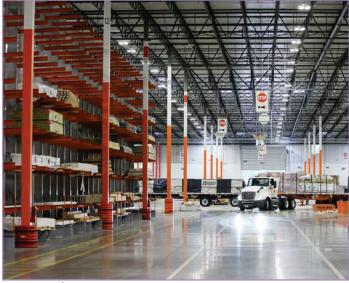

DeKalb County excels at many of the factors that attract businesses, including access to major highways, availability of skilled labor, and a high quality of life. Additionally, the county's relatively low cost of real estate while remaining close to central Atlanta is a significant asset.

Based on the county's strengths, weaknesses, and economic trends, the SEDP identified four target industries:

- ► Healthcare and Life Sciences
- ► Corporate Operations and Business Services
- Advanced Manufacturing
- ▶ Logistics and Distribution

These represent the anchor industries at which the county has a comparative advantage over other locations. These four industries should be the primary focus of economic development efforts.

Additionally, the SEDP identified Film and Entertainment Production as an "emerging industry" that DeKalb County may wish to cultivate by providing more resources.

Source: Decide DeKalb

# RECOMMENDATIONS

The five-year update to the Strategic Economic Development Plan provides an excellent blueprint for economic development efforts in DeKalb County. The County should first review the plan to determine which components are still relevant, which may need to be updated based on the Unified Plan and recent market changes. In addition to the items presented in the report, the County should encourage better coordination between the Department of Planning & Sustainability and Decide DeKalb, specifically on land use policies, activity centers, priority areas and employment centers. Industrial development as well as targeted economic development in disadvantaged areas and areas of disinvestment are additional priority areas of coordination. Finally, it is imperative that the County continue its partnership with Decide DeKalb to provide the best opportunity to implement these recommended actions and position DeKalb County for sustained economic development well into the future.

# POLICY SPOTLIGHT HEALTH & WELLNESS

# **Key Takeaways**

- Numerous organizations operate and provide resources throughout the county
- Various communities in DeKalb face barriers to health education and program delivery
- Develop a health resource map and esignate a County Helath and Wellness point- person to coordinate planning and resources

# FRAMING THE ISSUE

The DeKalb Board of Public Health sponsors many health and wellness related programs including those focused on access to healthy foods and active living, and many in collaboration with other organizations. This includes a mobile farmers market, Fresh On Dek, partnerships with faith-based organizations to provide access to facilities for physical activity for residents; Park Prescription Day with different activities within DeKalb County parks, and mobile vaccination sites. Additionally, the Board of Health provides preventative health initiatives; car seat safety initiatives, pedestrian safety campaign; mental health community support and education; and substance abuse counseling.

Over the last decade, a number of active living plans were developed by DeKalb County and the DeKalb County Board of Health in an effort to support better health outcomes for DeKalb residents and reduce the risk of chronic diseases such as diabetes, high blood pressure, cardiovascular disease, and other health related issues. Plans were created for areas such as Belvedere, Covington Highway, Gresham Road, Indian Creek MARTA Station, Medline LCI area and Panola Road/Salem Road. The plans included recommendations promoting accessibility to fresh food, pedestrian connections, cycling infrastructure, civic space, parks, and trails to support physical activity.

There are many organizations that operate within DeKalb County working to improve the health and wellness of citizens. Roots Down is partnering with the DeKalb County Library system on the Edible Libraries campaign to grow gardens starting at six libraries as an initial pilot program in addition to productive urban landscaping at a few area schools. Concrete Jungle, a local non-profit, provides foraging, farming, and support for food access by transforming overlooked and underutilized fruit trees and land into a healthy source for communities in need.

Other organizations such as the United Way provide programs such as the Strong Learners Panel in DeKalb, a business roundtable on early learning and the MORE Program focusing on infant and maternal health. Emory also takes a strong lead on providing health information to the public by utilizing social media influencers and community partners to communicate accurate information; organization of a South DeKalb Health Summit, in collaboration with DeKalb Board of Health; and partnering with DeKalb County government on vaccine events. The Center for Pan Asian Community Services, Inc. (CPACS) offers access to food; health and vaccine fairs; COVID-19, HIV, and Tuberculosis (TB) testing; annual physicals; Affordable Care Act (ACA) enrollment; the Victim Service Program, a safe shelter for women and children of the immigrant community; alcoholism prevention for young adults; and transportation assistance to employers outside the County.

# **Focus Areas**

Based on discussions with key health and wellness stakeholders, the following potential focus areas have been identified.

- ► Children's Health The Child Well-Being Index and associated map are tools developed to assess the health of a community. Of the 500,000 children in the metro Atlanta region on the low end of the index, approximately ½ reside in DeKalb County.
- ▶ Education and Communications Health literacy is the ability to obtain, read, understand, and use healthcare information to make appropriate health decisions and follow instructions for treatment. Some communities have barriers to health education and program delivery including language and technology.
- ➤ Partnerships Often health and wellness organizations are unaware what other providers are offering in the community, and the burden is on the individual client to research. There is a need for a structure to link individuals to the resources, and organizations to other organizations working in DeKalb.
- ▶ **Equity** Key focus areas identified related to equity include the decreasing inventory of affordable housing, especially near job centers, reliable transportation to and from jobs or services, especially for communities in south DeKalb, and the availability of or access to fresh food in some areas of the County.

# **Examples from the Region**

The following examples highlight two successful organizations and initiatives that support citizens' Health and Wellness.

### **Gwinnett County**

The Gwinnett Coalition of Health and Human Services is a robust collaboration of private, public, and non-profit groups and is the lead organization for Gwinnett County community development. The Coalition hosts programs like Healthcare Roundtables, Resilient Gwinnett, Gwinnett Cares and Gwinnett Veteran Resource Center.

# **City of Atlanta**

The non-profit, Open Hand Atlanta, has been in operation since 1988, and is one of the most collaborative nonprofit organizations in the United States working with over 100 public and private partners. Its mission is to eliminate disability and untimely death due to nutrition-sensitive chronic disease and it works towards this mission through "Food is Medicine" and evidence-based education programs.

# RECOMMENDATIONS

The following recommendations represent potential opportunities for the County to consider in supporting Health and Wellness. These recommendations have emerged through existing conditions analysis, peer example review, and stakeholder and public involvement:

# **Organizational Structure**

- ► Designate a Health and Wellness point person within DeKalb County Government to assist with dissemination of health and wellness related information and coordination
- ► Participate in public-private Health and Wellness focused programs & organizations to leverage funding and collaborate on public education and marketing.
- ► Host a Health and Wellness focused roundtable with community partners to promote information sharing, coalition building, and development of a structured network of resources.
- Establish a Child Care and Early Education Initiative to provide scholarships for high quality childcare and early education for low- and middle-income families.

# Planning and Programming Housing

Perform an assessment to determine affordable housing stock in DeKalb County and consider health and wellness resources and demographics.

## **Transportation**

Include access to parks, trails and recreational facilities in multi-modal transportation planning.

Develop a Local Road Safety Plan to foster better health outcomes on roadways in disadvantaged communities and where accident rates are higher.

### Strategic Planning

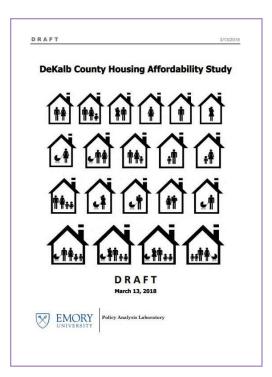

Develop a Health and Wellness Resource Map and Guide to inventory available facilities for active living such as parks, trails, and recreation centers and organizations that provide health and wellness services and programming.

### **Equity**

Prioritize adding or renovating amenities such as parks, recreation centers, sidewalks, and trails in underserved areas of the County.

Co-host health fairs and other events in underserved areas promoting active living. Potential partners includes "Streets Alive!," PATH Foundation, CPACS, and Friends of Refugees.

# POLICY SPOTLIGHT HOUSING

# **Key Takeaways**

- DeKalb County Should
   Take a Leadership Role on
   Affodable Housing
- Provide a strategic vision and direction for affordable housing
- Mobilize additional resources for affordable housing in deKalb County

# FRAMING THE ISSUE

The following is a summary of some of the key housing issues facing DeKalb. These were identified in both data collection and community outreach.

Historically, construction activity has focused on single-family detached and larger multi-family structures. These patterns do not match the needs of households in DeKalb, including lower-maintenance ownership options and lower-density rentals that may be more suited to families. The lack of varying housing types results in individuals staying in homes they do not prefer or need, entering homes that do not fit their stage of life or lifestyle or looking for housing outside of DeKalb. A greater variety of housing products should provide options for households' needs at every stage of life.

# Older and aging housing stock

Half of the county's housing stock is estimated to be over 40 years old, and 23% was built during the post-war boom years of the 1950s and 1960s. While most of this housing stock is structurally sound, larger ticket maintenance items are a concern. A large number of the smaller homes built in the 50s and 60s are also renter- occupied. These units are often referred to as naturally occurring affordable housing. Continual reinvestment in this stock of housing will be important as well as maintaining the affordability of these units.

# Demand for middle-income housing

Over the past two decades, much of the new construction market has focused on units that are affordable to households making less than 80% of the area median income (AMI) or over 120% of AMI. The need for these units continues, but the gap for the middle-income ranges has only grown. Capital or incentives for these projects are often harder to find and returns on investments are lower.

# Preservation of existing affordable rentals

Nationally, large numbers of units in the Low-Income Housing Tax Credit (LIHTC) programs have initiated the process to leave the program. At the same time, many locations have experienced a decline in the construction of new LIHTC units. Strategies will need to address the loss of these units either through preservation or construction of new units.

# RECOMMENDATIONS

A housing market is a complex and ever-changing landscape of countless variables including economic factors guiding production, rehabilitation, and demand. Social factors also influence housing preferences, as does the willingness of renters and buyers to adapt to new products. This fluidity can seem daunting, but all the more important to establish strategies around DeKalb County's issues. The following section summarizes strategies the County and community partners should consider. This should start with updating the more detailed Housing Study that was completed in 2018 and from that develop a more in-depth strategic housing plan for the county.

# **Housing Partnership**

The County, nor any one local jurisdiction, will be able to address all of the county's housing needs, it will take public-private partnerships. A consolidated and strategic approach to housing partnerships should be established. This should be thought of in the same vein as any other economic development initiative.

# **Create Housing Champions**

There are currently a number of departments, organizations, and agencies working on housing issues, but a unifying voice is missing.

**Establish a Housing Officer -** This individual should bring together partners and keep the issues around housing at the forefront. This role should not be purely focused on housing for the lowest incomes but should champion the broader needs for both the lowest and moderate-income households.

**Establish a Housing Advisory Committee** - The Committee should include a mixture of individuals with a wide range of experience within the housing industry. The committee members should also be champions for greater variety and affordability in the market. This may include tackling the NIMBY voices push against new product types.

**Track Housing data -** The only way to truly understand if progress is being made is to establish and track key metrics. One of the first tasks of the committee should be to identify what metrics should be tracked. Much of this may be based on the data collected in the updated housing study.

# Preserve and Expand the Number of Affordable Housing Units

Currently the County has a large stock of affordable housing. This includes both units that a part of specific programs to ensure their affordability and a large stock of older housing units that are naturally affordable.

# **Preserve Existing Affordable Rental Units**

Units built under the Low Income Housing Tax Credit (LIHTC) program are not permanently affordable units and rents are not restricted on these units once their time in the program is complete. Efforts should be made to keep these units affordable.

# Preserve Naturally Occurring Affordable Housing -

Older units often are naturally more affordable due to the cost of land, building materials, and labor at the time of construction. In extremely active markets, inflation can quickly price many middle- to lower-income households out of the market. Preservation of these units through programs like purchase-rehab-resale programs can preserve affordability.

Workforce Housing Ordinance - The 2018 housing study proposed the development and implementation of a workforce housing ordinance, which is currently under development. These ordinances can be crafted in a number of ways, but ultimately require a number of affordable units or payment-in-lieu to support the development of affordable units at another site.

# Secure Gap Financing

While the demand for housing units affordable to households making less than 120% of the Area Median Income (AMI) may be high, the ability of the private market to finance these units is difficult due to the limited profit margins.

# Development of a Housing Development or Trust Fund

- There are many different ways to organize a local funding pool, including a housing trust fund, lending consortium, or an economic development fund targeted to housing. These funds are the ideal instruments to:

Leverage the Land Bank - The Land Bank can provide an important relief valve in the cost of housing development. The cost of land is traditionally 20% or more of the final sale price of a home and lowering this cost fills a significant gap in the financing of more affordable housing. However, to do this the scope and purpose of the land bank will need to be better defined.

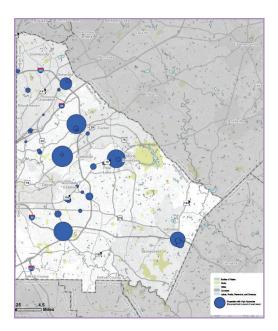

**Leverage other Sources -** There are a number of other sources and opportunities for funding. One of these being CBDG funds, however, those funds have to focus on lower-income households and do not address the gap in more moderate-income housing.

Establish a local funding pool, including a housing trust fund, lending consortium, or an economic development fund targeted to housing. These funds are the ideal instruments to:

Leverage the Land Bank - The Land Bank can provide an important relief valve in the cost of housing development. The cost of land is traditionally 20% or more of the final sale price of a home and lowering this cost fills a significant gap in the financing of more affordable housing. However, to do this the scope and purpose of the land bank will need to be better defined.

**Leverage other Sources** - There are a number of other sources and opportunities for funding. One of these being CBDG funds, however, those funds will have to focus on lower-income households and not address the gap in more moderate-income housing.

# POLICY SPOTLIGHT RETAIL

# **Key Takeaways**

- Support mixed-use development and redevelopment around the mall properties
- Consider public private partnerships
- Repurpose parking lots of underutilized shopping centers
- Create an organization focused on Memorial Drive

# FRAMING THE ISSUE

As part of the land use and market analysis, and based on discussions with stakeholders, members of the public, elected officials and staff, the County's retail sector was identified as one of the key issue areas related to future growth and development. Of particular interest are those areas identified as struggling retail nodes that commonly have high vacancies and observed disinvestment. Utilizing available retail data, existing retail conditions and trends were analyzed in DeKalb County. From this analysis, the top ten percent of properties that have the largest concentrations of vacant retail space were identified and mapped .Retail properties with the highest vacancies. Larger dots are areas with more vacant space.

The analysis of retail data revealed three primary concentrations of retail space with high vacancy in DeKalb County. The first is the existing indoor mall properties across the County, which together account for over 600,000 square feet of vacant retail space. The second concentration is a stretch of vacant retail spaces along Buford Highway, punctuated by 117,000 of available space within a former department store in the City of Doraville. The third concentration is a swath of vacant retail space roughly following Memorial Drive from the Gallery at South DeKalb near Interstate 20, then northwest towards the City of Stone Mountain. There are a few additional pockets high-vacancy retail space within the county, but these may simply represent new retail space that has not been occupied, retail space that is being renovated, or normal retail turnover, and do not necessarily indicate a longer-term pattern of vacancy.

# **Existing Indoor Malls within DeKalb County**

DeKalb County is home to several large indoor malls, including:

- Northlake Mall
- North DeKalb Mall
- Mall at Stonecrest
- Gallery at South DeKalb

The loss of retail and high volume of vacant space at each mall is not necessarily a cause for concern regarding local market performance on its own, as this is consistent with a nationwide trend shifting away from traditional indoor malls. Reinvestment or redevelopment plans are already in the works for some of these mall properties. In 2019, Emory University announced plans to lease over 220,000 square feet of space in Northlake Mall as office and administrative space.

Other developers have expressed interest in adding restaurants and housing to the property while revitalizing the retail spaces. North DeKalb Mall was recently sold with an aim to redevelop the property into a mixed-use development. Additionally, some former retail spaces at the Mall at Stonecrest have been

repurposed including one anchor location being converted into an entertainment center and aquarium.

Regardless of existing plans or market interest, the malls should certainly be a target for coordination and redevelopment efforts as appropriate due to their large footprints and the economic potential that each holds for their surrounding communities. The Gallery at South DeKalb may require the most attention of any of the four malls. The property has experienced recent closings of many anchor stores with no plans for new tenants or redevelopment on the horizon, emblematic of a larger trend within the adjacent Memorial Drive corridor. However, the Gallery at South DeKalb was recently sold to a new mall operator with the intention of securing new tenants and reviving the property.

### **Memorial Drive**

The most crucial segment for further action is near and along the Memorial Drive corridor, stretching from the Gallery at South DeKalb to Stone Mountain. This swath accounts for roughly half of the top ten percent of properties with the highest vacancies in DeKalb County. Unlike Buford Highway, many of these properties are shopping centers with numerous vacant storefronts and without an anchor tenant.

Additionally, although the data identified vacant space across the county, it did not clearly indicate underutilized properties that may not currently provide the high volume of retail for which they were designed. Vacancy data was supplemented with high-level observations of retail locations in this area of DeKalb County. Many properties are designed around large anchor stores which are currently unoccupied. As a result, most of the tenants are small businesses that, while successful, do not need the vast amounts of retail space and surface parking that the property includes. Additionally, several spaces are now occupied by DeKalb County government offices. All of these uses provide important services for the community but could perhaps do so in a more efficient use of space. Finally, there are numerous ethnic and international businesses along the corridor that would benefit from an increased focus on celebrating the unique offerings and making the area a regional destination. Many of these issues, as well as opportunities for development along Memorial Drive, were highlighted in the Memorial Drive Revitalization Corridor Plan in 2019.

# **Buford Highway Corridor**

Another area with a concentration of high vacancy retail properties is along Buford Highway. This trend warrants further attention, however, the vacancies present along Buford Highway are generally smaller in scale and tend to be limited to individual shops rather than entire shopping centers. Additionally, the area is recognized across the region for its cultural and culinary offerings.

# RECOMMENDATIONS

Overall, there are several opportunities to address areas of concern within DeKalb County. Some recommended actions include the following:

- ► Conduct a deeper analysis of the existing retail market, specifically in the three focus areas
- Support mixed-use development and redevelopment, particularly within and around the mall properties
- ► Consider public private partnerships and targeted public investment to support redevelopment and investment.
- ► Update Livable Centers Initiative studies or other small area plans within these focus areas
- Streamline approval and permitting process for redevelopment or investment within these areas
- Leverage existing MARTA stations within the Memorial Drive corridor to new attract development opportunities.
- Repurpose parking lots of largely empty shopping centers into public spaces, residential or mixed-use development
- Celebrate and promote the diversity of areas such as the Buford Highway corridor and the Memorial Drive corridor to attract interest and investment from across the region
- Relocate county offices from struggling retail centers to more centralized areas.
- ► Hire additional county staff focused on attracting investment and redevelopment within these focus areas
- Create an organization focused on Memorial Drive, similar to We Love BuHi
- Reduce the amount of existing retail space through coordination with public and private partners

# POLICY SPOTLIGHT SUSTAINABILITY

The Green Communities Program is a voluntary sustainability certification program that helps local governments reduce their environmental impact through actionable measures. The program fosters a greener, healthier and more livable region by providing a framework for cities and counties on their sustainability journeys. ARC strives to assist local governments in decreasing operational carbon emissions through building portfolio efficiency and clean energy opportunities.

# FRAMING THE ISSUE

DeKalb County's pledge to Sustainability begins internally within County operations. Currently, DeKalb County focuses sustainability resources on programs and activities at County facilities. Examples of current County Sustainability programs/activities at County facilities include:

- ► ARC Green Communities Program Participation
- Conservation Education Programs
- ► Community Rain Gardens
- ▶ Invasive Species Removal
- Generation of Compressed Natural Gas from County Landfills
- ► Electric Vehicle Charging Stations
- ► Office Programs
  - Various recycling programs
  - Reduction of Paper Use
  - Expansion of Digital Investment
- Motion Activated Lights

# **ARC Green Communities Program**

The ARC Green Communities Program is a voluntary sustainability certification program which supports local governments with guidance and activities to enhance sustainability within Metro Atlanta communities. Aspirations for the ARC Green Communities Program include:

- ► Reduction of energy and water use within government operations, buildings, and fleets.
- ▶ Providing curbside recycling to residents and businesses.
- Providing public education and examples of new and emerging sustainability practices.

# **Initiation of DeKalb Green Committee**

DeKalb's commitment to expanding the County's Sustainability programs includes the establishment of a DeKalb Green Committee. Comprised of DeKalb County personnel, this Committee will include County and Department leadership and will be responsible for developing sustainability policies, while also monitoring the implementation of the County's sustainability programs. The Committee would conduct regularly scheduled meetings, conducting meetings on a quarterly basis.

# **Sustainability Coordinator**

In the Department of Planning and Sustainability, DeKalb County has added a full-time staff position of Sustainability Coordinator. This position leads the management and coordination of sustainability programs and activities within DeKalb County, including coordination across County Departments on their sustainability activities, the monitoring of sustainability programs, and reporting of sustainability activities. In addition, the Sustainability Coordinator leads County's tracking and reporting for the ARC Green Communities Program.

# RECOMMENDATIONS

# Comprehensive Sustainability Plan for the County

The County currently lacks a holistic strategy for sustainability. Development of DeKalb County's first Sustainability Plan would establish a unified vision and goals, examine the current sustainability programs and activities, and identify potential partners. A set of recommendations that address short- and long-term needs for enhancing sustainability with County operations and in the community should be included.

# Public Communication and Education Programs

Create a sustainability education program that provides on existing programs and identifies ways for the community to be involved. This would include the communication of upcoming programs scheduled at County facilities, County websites and social media.

# **Enhanced Reporting of County Sustainability Achievements**

Currently, DeKalb County reports the sustainability achievements for County Departments internally, with limited, coordinated communication to the community. The County should assess the development of a Sustainability Dashboard that could County progress and achievements related to sustainability.

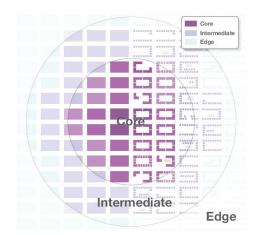

# Establish Department Sustainability "Leaders"

To ensure sustainability is a county-wide effort, leaders should be identified from each County Department. These designated leaders will be the sustainability point of contact for that Department and would be responsible for coordination and reporting of their Department's sustainability activities and progress. These leaders may also serve on the Green Committee.

# Maintain ARC Green Communities Certification

The ARC Green Communities program provides a checklist or guidebook for initiating sustainability programs and measuring program progress. The initial participation of the ARC Green Community Program serves the County with initial strategic programs and the foundational tracking of sustainability programs throughout the County. Once the County achieves "recertification" as a Green Community, annual or semi-annual reporting and performance monitoring should be established to maintain certification. The Green Committee may serve as the monitoring and reporting body for this task, providing updates and recommended actions to County leadership and staff.

# TRANSIT ORIENTED DEVELOPMENT

# **Key Takeaways**

- ► Encourage the development of station area plans
- Update plans and policies after upcoming transit projects and plans are complete
- Study and gather input on funding and priorities

# FRAMING THE ISSUE

Transit-Oriented Development (TOD) typically incorporates a mixture of uses, including residential, retail, and office uses within a compact area. The intention of TODs is to create dense, walkable areas that are supportive of multimodal transportation options, specifically the use of transit and less dedicated parking, in the areas of high-capacity transit stations.

A typical TOD district focuses strategic growth areas near transit, primarily between one-quarter to one-half mile radius from the transit station. The development density of a TOD should intensify closer to the center of the radius.

# **Equitable Transit-Oriented Development**

The establishment of equitable TOD policies enables government agencies to set TOD standards that ensure high-quality development, while mitigating the displacement of current residents and businesses in these areas. New TODs and transit corridors provide opportunities for entrepreneurs and employers by improving accessibility to multiple mobility options in the area and providing a setting for prospects such as locating workforce development and start-up business training.

# **Existing Stations**

Currently, unincorporated DeKalb County is home to two MARTA heavy rail stations, Kensington and Indian Creek. Two previous comprehensive development plans for the Kensington MARTA Station and its surrounding areas were completed in 2002 and 2012. An update plan for the Kensington MARTA Station area was initiated in 2021. A planned study for the Indian Creek MARTA Station area is planned to begin in 2022 and will study TOD opportunities surrounding the station.

# **DeKalb County Transit Master Plan**

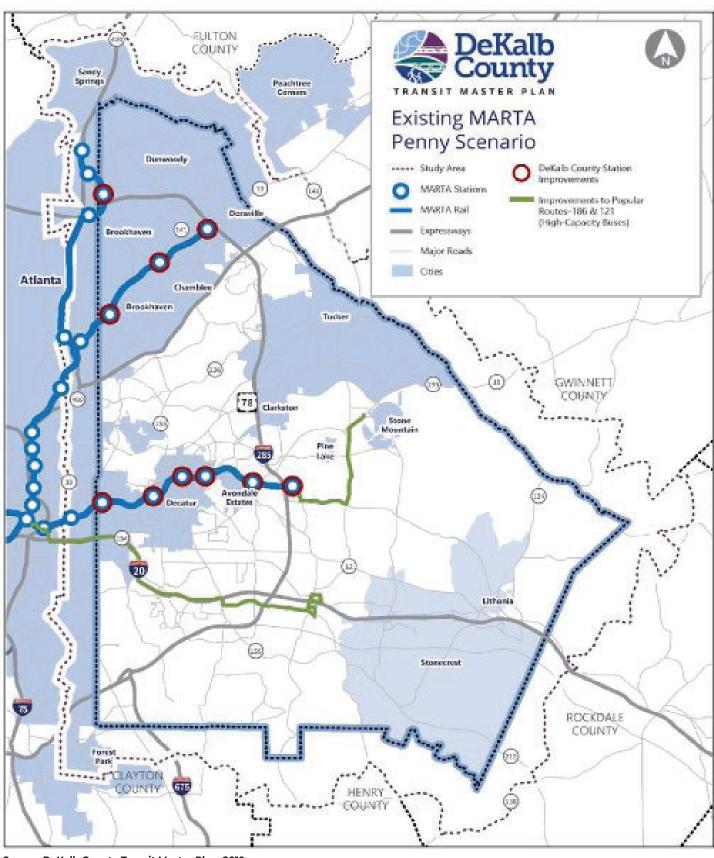

In the DeKalb County Transit Master Plan, four potential funding scenarios were developed to guide the advancement and expansion of high-capacity transit in DeKalb County. These four scenarios included the Existing MARTA Penny Scenario; Half-Penny Scenario; Full-Penny Scenario; and the Previously Adopted Scenario.

# **Existing MARTA Penny Scenario**

The Existing MARTA Penny Scenario assumes a continuation of the one-penny MARTA sales tax with no additional funding. The revenue generated in this scenario would support the maintenance, sustaining capital, and operations of the existing system without any additional transit expansion. The impacted transit corridors in the Existing MARTA Penny Scenario are included in Table 1.

Cor	Project Limits			
High Capacity	I-20 East/Rainbow Drive	Route 186		
Buses	Memorial Drive	Route 121		

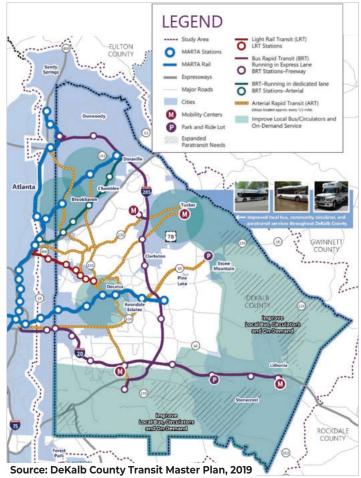

Table 1 - Existing MARTA Penny Scenario - Transit Corridors

Source: DeKalb County Transit Master Plan, 2019

#### Half-Penny Scenario

The Half-Penny Scenario presumes the extension of the one-penny MARTA tax and includes an additional half-penny sales in DeKalb County for transit under HB 930. The funding generated in this scenario supports maintenance, sustaining capital, and operations of the existing system combined with potential transit system expansion including 15 projects – one Light-Rail Transit (LRT); five Bus Rapid Transit (BRT), including leveraging the planned I-285 managed lanes for the utilization of BRT in DeKalb County and I-20; nine Arterial Rapid Transit (ART), and 139 project miles. The impacted transit corridors in the Half-Penny Scenario are included in Table 2.

	Corridor	Project Limits
LRT	Clifton Corridor LRT (Segment 1)	Emory/CDC to Clairmont Road at North Decatur Rd
	I-20 East BRT – Segment 1	Downtown Atlanta to Wesley Chapel Road
	I-20 East BRT – Segment 2	Wesley Chapel Road to Stonecrest Mall
BRT	I-285 Top End BRT	Dunwoody Station to Northlake Mall
	I-285 East Wall BRT	Northlake Mall to GSU/Perimeter College
	Buford Highway BRT	Doraville Station to Lindbergh Station
	Memorial Drive ART – Segment 1	Five Points to Kensington Station
	Memorial Drive ART – Segment 2	Kensington Station to Goldsmith P&R
	Candler Road ART	Avondale Station to South DeKalb Mall
	Clairmont Road ART	Decatur Station to Chamblee Station
ART	North Druid Hills ART	Emory/CDC to Brookhaven Station
	Lawrenceville Highway ART	Decatur Station to Downtown Tucker
	LaVista Road ART	Lindbergh Station to Downtown Tucker
	Clifton Corridor ART	Avondale Station to Clairmont Road
		Brookhaven Station to Medical Center Station

Table 2 - Half-Penny Scenario - Transit Corridors

#### **Full-Penny Scenario**

The Full-Penny Scenario reflects the extension of the one-penny MARTA tax and the passage of an additional full-penny sales tax in DeKalb County for transit under HB 930. The funding generated in this scenario supports maintenance, sustaining capital, and operations of the existing system along with potential transit system expansion including 17 projects – four Light-Rail Transit (LRT); five Bus Rapid Transit (BRT), including leveraging the planned I-285 managed lanes for the utilization of BRT in DeKalb County; eight Arterial Rapid Transit (ART), and 180 project miles. The impacted transit corridors in the Full-Penny Scenario are included in Table 3.

	Corridor	Project Limits
	Clifton Corridor LRT (Segment 1)	Emory/CDC to Clairmont Road at North Decatur Rd
LDT	Clifton Corridor LRT (Segment 2)	Clairmont Rd at North Decatur Rd to Avondale Station
LRT	Candler Road LRT	Avondale Station to South DeKalb Mall
	LRT to Wesley Chapel Road	South DeKalb Mall to Wesley Chapel Road
	I-20 East BRT – Segment 1	Downtown Atlanta to South DeKalb Mall
	I-20 East BRT – Segment 2	Wesley Chapel Road to Stonecrest Mall
BRT	I-285 Top End BRT	Dunwoody Station to Northlake Mall
	I-285 East Wall BRT	Northlake Mall to GSU/Perimeter College
	Buford Highway BRT	Doraville Station to Lindbergh Station
	Memorial Drive ART – Segment 1	Five Points to Kensington Station
	Memorial Drive ART – Segment 2	Kensington Station to Goldsmith P&R
	Clairmont Road ART	Decatur Station to Chamblee Station
ADT	North Druid Hills ART	Emory/CDC to Brookhaven Station
ART	Lawrenceville Highway ART	Decatur Station to Downtown Tucker
	LaVista Road ART	Lindbergh Station to Downtown Tucker
	Johnson Ferry Road ART	Brookhaven Station to Medical Center Station
	Hairston Road ART	SR 155 (Flat Shoals Parkway) to Downtown Tucker

Table 2 - Full-Penny Scenario - Transit Corridors

#### **Previously Adopted Scenario**

The Previously Adopted Scenario implies continuing the one-penny MARTA tax in addition to an unidentified additional funding source that can generate more revenue than that generated by the full-penny sales tax scenario in DeKalb County for transit under HB 930. The funding generated in this scenario supports maintenance, sustaining capital, and operations of the existing system in addition to expanding the transit system with three projects – one Heavy-Rail Transit (HRT); one Light-Rail Transit (LRT); one Bus Rapid Transit (BRT), and 37 project miles. The impacted transit corridors in the Previously Adopted Scenario are included in Table 4.

#### **Funding**

The Existing MARTA Tax is a one-penny sales tax under the MARTA Act levied in DeKalb County. The funding maintains operations of the current system and funds state of good repair and sustaining capital projects.

The HB 930 Sales Tax enables DeKalb County to levee up to a one-penny in the form of an additional sales tax funding for transit over a 30-year period, provided the County remains under the State limit for county sales tax. This funding source would require passage by DeKalb voters. Two funding scenarios were conceived in the DeKalb County Transit Plan utilizing this resource, a half-penny and one-penny sales tax, with a potential to generate \$1.85 billion and \$3.65 billion in sales tax revenue.

Additional study and engagement are necessary to reduce the number of potential funding and implementation plans and formalize both the funding source and amount. Progress is anticipated in this regard in 2023 as there is potential to place a transit referendum on the general election ballot in 2024, along with several other metro Atlanta counties.

#### **Next Steps**

Regardless of the transit plan that is eventually chosen for public review, the County should encourage the development of station area plans and transit-oriented development strategies at all potential high-capacity transit stations. Transit oriented development and the benefits that it provides in terms of concentrations of employment, education, and housing; enhanced accessibility and walkability; and greater equity are appropriate for all forms of high-capacity transit (heavy rail, light rail, and Bus Rapid Transit (BRT)).

## CHAPTER 05 COMPREHENSIVE

## COMPREHENSIVE TRANSPORTATION PLAN

#### 2014 CTP Goals

- Improve mobility for all people
- ► Enhance quality of life
- ► Improve economic vitality
- Focus on implementation

#### **EXECUTIVE SUMMARY**

The DeKalb County 2014 Transportation Plan is about improving the lives of local residents and creating an environment for businesses and institutions to thrive. Competition from across the United States and even from other countries requires the Atlanta region and its counties to provide facilities and opportunities to attract new talent and financial capital. Traffic congestion and a lack of transportation alternatives can no longer be offset by offering low housing costs, a pleasant climate, and a friendly business atmosphere. DeKalb County requires a transportation system that enables its many assets to continue to flourish. To this end, the DeKalb County 2014 Transportation Plan represents a coordinated strategy intended to improve how people, goods, and services move throughout and within the community.

The strategies identified in the Plan will have the desired outcome of improving the quality of life for existing and future residents and offering enhanced economic vitality. The Plan was intentionally designed to emphasize implementation by seeking to align public policy, funding, and partnerships that promote positive influences on the transportation system. To continue to meet the diverse needs of the County, the transportation system must keep evolving. Adopting a prioritized list of projects and policies will enable the County to take action and maintain a transportation system that positions the County to compete economically and offer residents a high quality of life.

A primary component of the County's Transportation Plan is the list of regionally significant projects commonly supported by County representatives. This list of transportation projects can be used to provide input for the regional transportation planning process where additional funding is available. These identified projects should form the basis of future funding requests submitted to the Atlanta Regional Commission (ARC) and the Georgia Department of Transportation (GDOT) during the Transportation Improvement Program (TIP) and Regional Transportation Plan (RTP) update cycles.

The document provides an overview of the planning process, the resulting recommendations, and the necessary actions for ensuring ongoing implementation. Preceding this report is an additional technical document called the Existing Conditions and Needs Assessment Report (published June 2013), which provides a thorough overview of the existing transportation network and provides an assessment of current and future transportation deficiencies.

Because of the strong interest expressed by policy makers, stakeholders, and the public concerning safe and efficient

travel for alternative modes, including for bicyclists, pedestrians, and transit users, a Complete Streets Policy has been developed as a standalone formal policy document included in the Appendix of this Plan. Although this is not a document that should be added to the Code of Ordinances (because it is only intended for guidance), the Complete Streets Policy has been separated distinctly from the Plan text to reflect the emphasis placed on multimodal accessibility.

#### **PROJECT VISION AND GOALS**

#### **Vision Statement**

The DeKalb County 2014 Transportation Plan is intended to improve mobility for all people, enhance quality of life, facilitate economic vitality, and focus on implementation.

Goal 1: Improve mobility for all people

Goal 2: Enhance quality of life

Goal 3: Improve economic vitality

Goal 4: Focus on implementation

#### **COMPREHENSIVE TRANSPORTATION PLAN UPDATE**

The DeKalb County 2050 Comprehensive Transportation Plan is currently being updated. Once complete, it will be adopted as part of the DeKalb 2050 Unified Plan. Initial priority areas for the DeKalb 2050 Comprehensive Transportation Plan have been identified as follows.

- ▶ Provide Transportation Options through Connectivity across Modes Improve travel for all users by increasing connections across roadway, transit, bicycle, and pedestrian modes.
- ▶ Promote Equity Prioritize improvements that increase transportation access to all parts of the County, especially communities where lack of transportation options creates substantial barriers.
- ▶ Improve Safety Provide for safe travel by users across all modes of transportation.
- ► Enable Healthy Communities and Improve Quality of Life Leverage transportation infrastructure to encourage an active lifestyle and overall improved quality of life.
- ▶ Respect/Improve DeKalb County's Character Implement transportation projects that improve mobility while taking into consideration local community context.
- ▶ Increase Access to Jobs and Education Prioritize transportation investments that allow workers and students to more easily access these key destinations.
- ▶ Better Accommodate the Movement of Goods Implement transportation projects that improve freight in the County either by truck or by rail.
- ► Improve Maintenance Ensure the long-term care for existing infrastructure including paving roads and repairing bridges and signal systems.
- ► Increase Funding for Improvements Pursue new local revenue sources that will allow the County to implement additional transportation projects.
- ► Encourage Economic Development Leverage transportation projects that help to encourage revitalization and new development throughout the County.
- ▶ Practice Fiscal Responsibility in Transportation Investments Prioritize transportation projects that can be implemented in a reasonable timeframe and provide a strong return on investment.

## THIS PAGE LEFT INTENTIONALLY BLANK

#### DEKALB COUNTY SMALL AREA PLANS (SAPs)

Small Area Plans (SAPs) cover a smaller area than a comprehensive plan, and are intended to address specific land use and development issues at a finer level of detail. These plans support the general vision, policies and goals of the community, but allow for a greater degree of detail in guiding development. They may have their own sets of specific policies to shape development, and can include elements such as design guidelines, standards for transitions in development intensities and uses, additional standards for mixed use, investments in infrastructure, connectivity, and greater opportunities for input and control from local residents and businesses. SAPs can take a variety of forms, such as Livable Center Initiatives (LCIs), Master Active Living Plans (MALPs), Corridor Plans, or TOD plans, and are the primary tool by which the county intends to shape development in Activity Centers and along Commercial Redevelopment Corridors. The County intends to work towards implementing SAPs in all Activity Centers, and those that have been completed to date are as follows:

- ▶ Briarcliff Clairmont Road Plan
- ► Candler Flat Shoals Activity Center
- ► Glenwood Columbia Plan
- Kensington Activity Center
- MARTA I-20 East TOD Plan
- Master Active Living Plans (MALPs)

- ▶ Memorial Drive Revitalization Corridor Plan
- Medline Activity Center
- North Druid Hills Activity Center
- Northlake-Tucker Activity Center
- Wesley Chapel Activity Center

#### BRIARCLIFF CLAIRMONT ROAD PLAN (2021)

The Briarcliff- Clairmont
Activity Center is a gateway to
unincorporated DeKalb County
at the intersection of I-85 and
Clairmont Road - a major northsouth corridor through DeKalb
County. The Briarcliff-Clairmont
Activity Center is surrounded by
growing pockets of activity and
redevelopment.

Design Guidelines				
Sub –Area	Proposed Density	Proposed Height		
Core Mixed-Use	70 Units/acre 90 Units/acre with density bonuses	Up to 8 stories		
Multi-family Residential	24 units/acre	Up to 4 stories, 6 with bonuses		
Residential/ Commercial	24 units/acre	1-3 stories subject to zoning classification		
Commercial	N/A	1-3 stories subject to zoning classification		

Figure 2 - Table of Subareas Proposed Density and Height

Figure 1 - Briarcliff Clairmont Activity Center and SUbareas

Figure 3 - Potential Development Concept

The overall vision for the Briarcliff-Clairmont Activity Center is for an integrated, walkable community that serves as the neighborhood activity center for the surrounding neighborhoods. This includes higher density, mixed-use development within the core surrounded by appropriately scaled development that steps down in height as it nears existing single-family neighborhoods. Mixed-use and commercial developments should be focused along the frontages of Clairmont Road and Briarcliff Road or interior public spaces or streets, with minimal curb cuts and interparcel connectivity where reasonable. Appropriate transitions, buffers, and transitional height planes should buffer commercial and mixed-use development from existing single-family homes. The revised Briarcliff-Clairmont Road Small Area Plan includes additional detail and guidance from the Comprehensive Plan specific to the area's character and location. The Activity Center is organized into four subareas, each with recommended densities, maximum heights, and related policies as outlined below.

#### CANDLER ROAD FLAT SHOALS LCI (2007)

The Candler Road Activity Center derives from the Candler/Flat Shoals Livable Centers Initiative (LCI) Plan. The core of the study is the South DeKalb Mall. Some of the goals of the plan: Encourage diversity of mixed inc ome neighborhoods, employment, and recreational choices. Provide access to a wide range of travel modes, including transit, walking and biking. Develop an outreach process that promotes involvement of all stakeholders. Land Use recommendations from the study are being used as policy guidelines in the comprehensive plan.

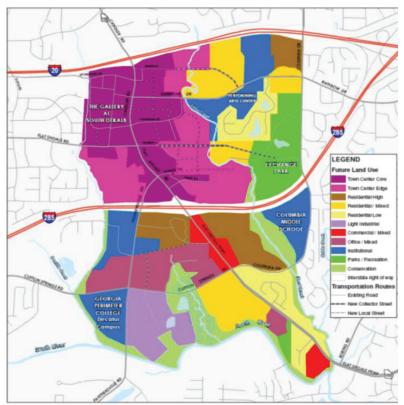

Figure 4 - Future Land Use Map

Candler Road Flat Shoals Parkway I CL

Figure 5 - Example Development

Figure 6 - Example Development

Sub-Area Policy Guidelines			
Town Center Core	Use: Compact high density mixed use Density Max: 60 dwelling units/acre Building Heights: 4 -6 Stories 80% Commercial/ Office; 20% Residential		
Town Center Edge	Use: Compact high density mixed use Density Max: 45 dwelling units/acre Building Height: 3 -5 Stories 70% Commercial/ Office; 30% Residential		
Residential High (Neighborhood Center)	Use: High density consistent w/ zoning Density Max: 24 dwelling units/acre Building Heights: 1 -3 Stories 80% Residential / 20% Open Space		
	Use: Town -homes and Single Family Density Max: 12 dwelling units/acre Building Heights: 1 -2 Stories 20% Commercial/ Office; 80% Residential		
Residential Low (Suburban)	Use: Single Family Residential Density Max: 8 dwelling units/acre Building Height: 1 -2 Stories 80% Commercial/ Office; 20% Residential		
Light Industrial	Use: Warehouses, Storage, Distribution Density - 60 dwelling units/acre Stories - 4 -6 80% Commercial/ Office; 20% Residential		
Commercial Mixed	Use: Compact high density mixed use Density - 60 dwelling units/acre Stories - 4 -6 80% Commercial/ Office; 20% Residential		
Office Mixed	Use: Office, medical Density Max - 30 dwelling units/acre Building Height - 1 -2 Stories 70% Commercial/ Office; 30% Residential		
Institutional	Use: Civic and educational, large -scale medical and religious.		
Parks/Recreational	Use: Parks, athletic fields and recreation centers. No residential or commercial.		
Conservation/Open Space	This category identifies streams, buffers, flood plan & other protected, natural features.		

Figure 7 - Future Land Use Table

#### GLENWOOD COLUMBIA PLAN

In partnership with the Atlanta Regional Commission, the DeKalb County Department of Planning & Sustainability has conducted a planning process to identify capital investment and policy changes that can support a more livable, pedestrian friendly environment at the intersection of Glenwood Road and Columbia Drive. This location has been identified as a Commercial Redevelopment Corridor (CRC) in the DeKalb County Comprehensive Plan, indicating a need for improved function and aesthetic appeal. The study area's current state is a result of disinvestment through the 1990s which led to income decline and lack of maintenance.

Figure 9 - Concept Image

Figure 10 - Concept Image

Figure 8 - Potential Future Development

#### **Townhome Residential**

As an additional residential offering, Townhomes can be placed on the edges of the study area, providing low intensity development directly abutting single family homes while keeping consistent with walkable development patterns.

#### 1-2 Story Mixed Use

Continuing outwardly, 1- to 2-story mixed-use buildings will create a natural transition zone to what is currently single-family residential in the surrounding neighborhoods. Building programs would continue similarly, only at a smaller scale:

- Ground level Restaurants
- Retail
- ► Entertainment Options
- 2nd Story Office
- ▶ Healthcare
- Condos/Apartments

#### 1-3 Story Mixed Use

Striking a balance between optimal use of land and a physical scale that compliments the community is a challenge within itself. Land use policies in place encourage 1-3 stories in a Neighborhood Center Character Area. This analysis and the accompanying engagement efforts point to encouraging three-story mixed-use at the core of the study area, programming in the following way:

- Ground level Restaurants
- Retail
- Entertainment Options
- 2nd and 3rd Stories Office
- Healthcare
- ► Condos/Apartments

#### KENSINGTON LCI & UPDATE (2002, 2003, 2012)

DeKalb County conducted an LCI study for this area and the surrounding area in 2002. The plan has established a long-term vision for the study area by promoting pedestrian-friendly, mixeduse development, enhancing connectivity, ensuring multiple transportation options, and supporting economic growth and a high quality of life.

Since the plan was completed in 2003, some of the action plan items have been completed, such as the Juvenile Justice Center. There are also several action items which turned out to be irrelevant due to changing situations or obstacles that could not be overcome. The purpose of this study is to prepare a comprehensive development plan for the Kensington MARTA Station and the adjacent countyowned property with sufficient specificity and strategies for further implementation of the original LCI plan created in 2002. The redevelopment sites will address both land use and transportation issues to support development that will support a multi-modal environment and optimize utilization at the existing MARTA station.

In 2012, a follow up study was completed for the county-owned land and adjacent parcels. This study identified additional development concepts and public improvements for the area.

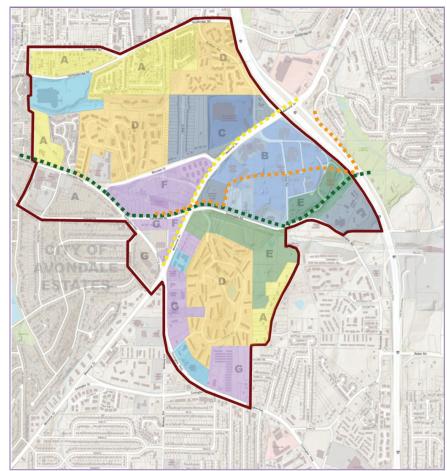

Figure 11 - Kensington Activity Center and Subareas

Sub-Areas (w/Future Land Use Compatibility)	Preferred Uses	Density (dwelling units/acre)	Preferred Building Height
A Single Family Preservation (Suburban)	Single Family Residential, Trails	8	2 Stories Maximum
B. DeKalb County Government Center (Institutional)	Office, Retail, Restaurants, Civic, Amphitheaters	N/A	10 Stories Maximum 5 Stories Minimum
C. Regional Employment Center (Office Professional)	Office, Restaurants, Retail		30 Stories Maximum 10 Stories Minimum
D. Multi-family Redevelopment (Town Center)	Multi-family Residential, Recreation, Parks	60 (core) 45 (Intermediate) 24 (Outer)	3-5 Stories
E. Open Space Enhancements (Conservation/Open Space)	Parks, Trails, Recreation	N/A	N/A
F. Kensington MARTA Station (Regional Center)	Office, Residential mix with Retail & Office Restaurants, Pocket Parks	45	5 Stories
G. Mixed Use Redevelopment (Town Center)	Office, Residential, Retail, Restaurants, Pocket Parks	60 45	Up to 5 Stories

Figure 12 - Subareas Table

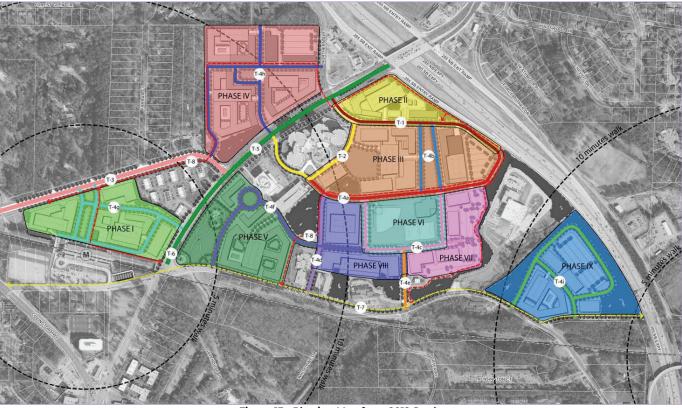

Figure 13 - Phasing Map from 2012 Study

#### Future Land Use

This activity center functions as a Regional Center character consisting as a focal point for several neighborhoods with a concentration of activities such as general retail, commercial, professional office, higherdensily housing, and appropriate public and open space uses easily accessible by pedestrians. The primary land uses include: townhomes, condominiums, apartments, health care facilities, retail and commercial, office institutional, entertainment and cultural facilities, park and recreational facilities, and public and civic facilities at a density of up to 120 dwelling units per acre. 1. Preserve single family residential; 2. Consolidate DeKalb County facilities on existing site and establish a Government Center; 3. Develop a regional Employment Center on the Roberds site; 4. Anticipate long-term redevelopment of aging multi-family housing stock; 5. Preserve and expand greenspace; 6. Redevelop the Kensington MARTA Station area as a mixed-use community; and 7. Develop mixed-use along Memorial Drive and Covington Highway to create a 24-hour community.

#### Transportation and Circulation

- Improve pedestrian and car access from Mountain Drive to and within the proposed
- Develop a transit plaza linking the station to Mountain Drive and creating a centralized pedestrian friendly space within
- the Kensington Station area; Improve transit service through the creation of a Bus Rapid Transit (BRT) system, functioning with a dedicated right of way off Memorial Drive through the proposed government center:
- Provide signal prioritization improvements
- Develop a greenway system from Avondale Middle School through the Kensington station to Avondale Dunaire Park.

Figure 14 - 2012 Study Elements

#### Kensington LCI Concept Plan

the study, several of which include concept plans. The overall LCI Study Area Concept Plan is a compilation of future land use patterns and transportation and circulation improvements. designed to create a more pedestrian-triendly and transit-oriented environment in and around the study area. The plan incorporates seven (7) circulation improvements. There are also several individual concept plans for the study area. These

#### 06 - SMALL AREA PLANS

#### MARTA I-20 EAST TOD PLAN

The Metropolitan Atlanta Rapid Transit Authority (MARTA), in conjunction with DeKalb County and the City of Atlanta, and in cooperation with the Federal Transit Administration (FTA), initiated the I-20 East Transit Initiative to identify transportation and environmental impacts associated with the development of high-capacity transit service from downtown Atlanta to the Mall at Stonecrest in southeastern DeKalb County. The project is intended to improve east-west mobility and accessibility to jobs and housing by providing a highcapacity transit alternative in the I-20 East Corridor. In addition, the project will provide opportunities for economic development and support revitalization efforts as planning partners in the corridor including the City of Atlanta and DeKalb County prepare for anticipated future growth.

#### 06 - SMALL AREA PLANS

#### MASTER ACTIVE LIVING PLANS (MALPS) (2013)

Chronic diseases are among the most common and costly of all health problems in the United States, but they also are among the most preventable.

Lack of physical activity and poor nutrition, two modifiable risk factors for obesity, and tobacco use are responsible for much of the illness, suffering, and death related to chronic diseases.1 To

help address these health issues, the U.S. Department of Health and Human Services (HHS)

created Communities Putting Prevention to Work (CPPW), which is led by the Centers for Disease Control and Prevention (CDC). Through these programs, DeKalb County, Georgia is tackling public health threats throughout its region by creating a Master Active Living Plan (MALP). The integration of physical activity and other healthy behaviors into the daily routines of DeKalb County residents is the focus of this study. By planning communities with a deliberate focus on health, the health and quality-of-life of their residents can be improved. The proposed MALP's are as follows:

- Indian Creek MARTA Station
- ▶ Panola Road/Salem Road
- Belvedere Study Area
- Covington Highway Corridor

Figure 20 - Indian Creek MARTA Station Concept

Figure 21 - Covington Highway Concept

### MEMORIAL DRIVE REVITALIZATION CORRIDOR PLAN

With a focus on four strategic areas along the corridor, the expressed vision for the corridor encourages redevelopment to start in these areas: 1. Gateway West: A regional center at the I-285 interchange 2. Global City: A community that reflects the diversity of the corridor 3. Hambrick Village: A neighborhood serving commercial node 4. Gateway East: With easy access to Stone Mountain Freeway, this area represents unique opportunities to bring craftoriented employment to the corridor.

#### **MEDLINE LCI (2014)**

The Medline study area totals 520 acres in unincorporated DeKalb County, framed by four major intersecting corridors: Church Street, Scott Boulevard/ Lawrenceville Highway, North Decatur Road and DeKalb Industrial Way. General boundaries are defined by Jordan Lane to the north, Medlock Road to the west, Remington Lane to the south and DeKalb Industrial Way to the east. The DeKalb Medical Center, Patel Plaza and Suburban Plaza are all popular destinations located within the study area. The study area is approximately two miles north of Downtown ecatur, 10 miles from downtown Atlanta and just 2 miles west of the I-285 interchange. The Medline LCI area is characterized by major regional corridors flanked by commercial and vacant properties. Over 30 acres of the land along these corridors is vacant, greyfield parcels. The corridors provide ease of access for automobiles but are lacking in pedestrian and bicycle infrastructure, making the area unhealthy and difficult to traverse without a car.

#### NORTH DRUID HILLS LCI & UPDATES (2010, 2021)

The North Druid Hills Livable Centers Initiative (LCI) study was commissioned by DeKalb County and the office of Commissioner Jeff Rader in conjunction with the Atlanta Regional Commission. The Briarcliff Node portion of the overall LCI was updated in 2021. The intent of the study is to improve the quality of life in the North Druid Hills Road Corridor and create a unique identity for the area by linking transportation improvements and land use recommendations. The LCI study was managed by DeKalb County. A Core Team of area stakeholders was formed to provide guidance and input during the course of study. Institutions, land owners, developers, and neighborhood associations with interests in the North Druid Hills LCI study area comprised the membership of the Core Team. In addition to the stakeholder group, public input opportunities including a design workshop, survey, comment forms, and study website were provided throughout the process, with a total of four public meetings held.

#### **WESLEY CHAPEL LCI (2011)**

The Wesley Chapel Activity Center derives from the Wesley Chapel Livable Centers Initiative (LCI) Study. The core of the study is the nexus of Interstate 20 and Wesley Chapel Road. Some of the goals of the plan: Encourage diversity of mixed income neighborhoods, employment, and recreational choices. Provide access to a wide range of travel modes, including transit, walking and biking. Develop an outreach process that promotes involvement of all stakeholders. Land Use recommendations from the study are being used as policy guidelines in the comprehensive plan.

- I. Lifelong Communities ensuring that design captures the needs of young, old, and everyone in between by promoting multimodal access, diverse housing options, and desirable community spaces
- II. Multimodal Transportation
  Investments Provide improvements
  for vehicle, pedestrian, and other ways
  of getting around.
- III. Green Communities Standards reducing energy consumption through more efficient building design and land use choices, and pursuing new opportunities for energy production.
- IV. Public Private Partnerships Encourage collaboration between public and private partnerships.

43	Sewer Tanks - Snapfinger Creek	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments	
44	OSARP Rehabilitation projects – design and commence rehab	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments	

REPORT OF ACCOMPLISHMENTS - WATERSHED MANAGEMENT					
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION		
45	Valve Location, Exercise, Repair and Replacement Annual Program	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments		
46	Consent Decree Assessment – various contracts	Underway			
47	Consent Decree Program Management Services	Underway			

REPORT OF ACCOMPLISHMENTS - FIRE AND RESCUE					
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION		
01	Fire Station Replacement Program: several fire stations will have reached beyond their lifespan regarding effectiveness, living standards and structural integrity.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments		
02	Public Safety Training Center: The training center is limited in space, facilities and equipment to adequately serve the needs of the department.	Underway			
03	Complete the implementation of DeKalb Fire Service's five-year Capital Improvement Program that began June 1996. Station #3, Clarendon Avenue, is scheduled for replacement. Six stations require major renovations/remodeling. Develop and implement a revised plan to include CIP's for fire stations, apparatus and existing facility renovations.	Underway			
04	Determine the need for additional fire stations	Underway			
05	Update and revise Mutual/Automatic Aid agreements with all neighboring jurisdictions.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments		

REPORT OF ACCOMPLISHMENTS - COMMUNITY DEVELOPMENT				
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION	
01	Utilize HOME and CDBG funds to develop new affordable single-family housing by partnering with local CHDOs, the DeKalb Housing Authority, or other private developers.	Underway		
02	Utilize NSP funds to purchase and rehabilitee foreclosure homes within targeted neighborhood to stabilize community.	Underway		
03	Utilize CDBG funds to contract with an agency that will undertake emergency repairs, minor home repairs, installation of safety equipment, and heavy property maintenance to 50 elderly heads of households.	Underway		
04	Utilize the CDBG program's Section 108 Loan Program to facilitate major industrial development projects that will create jobs for low- and moderate- income workers.	Underway		
05	Enforce the housing code for apartment structures which are substandard and use the police power to upgrade and comply with the building code.	Underway		
06	Develop resident associations and Neighborhood Watch Programs in apartment complexes and public housing which meet regularly with the police to determine problems and develop solutions.	Underway		
07	Coordinate with the State Dept. of Education, DSS, to ensure there is a plan in place to serve children with disabilities and special needs.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments	
08	Provide CDBG funds to address the problems of foreclosure/predatory lending.	Underway		

NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION
09	Utilize CDBG funds to support youth related summer recreational, selfesteem, enrichment programs and activities to be administered and implemented by the County for approximately 300 County incomeeligible youth.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
10	Provide CDBG funds to encourage services for small business microenterprise training and entrepreneur development.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
11	Provide CDBG funds for a Small Business Revolving Loan Fund Program to lend funds from \$10,000-\$35,000 for business in DeKalb County. For every \$35,000 in funds loaded (1) fulltime equivalent job must be created.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
12	Produce a comprehensive countywide Housing Plan, with recommended policy guidelines.	Underway	
13	A new Central Senior Center and South Senior Center were recently constructed. CDBG dollars paid for the design and engineering for Fire Station No. 7. SPLOST funds will pay for construction of the new Fire Station No. 7.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
14	Community Development Department has a rolling application process for HOME loans for the development of affordable units, affordable rental units and multifamily housing. Community Development will continue accepting and underwriting applications through 2022.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
15	Community Development provides funds for Community Development Housing Organizations to promote to acquire and rehabilitate single family structures. These rehabilitated single-family structures will then be sold to low- and mod-income eligible families - CDBG.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments

REPORT OF ACCOMPLISHMENTS - COMMUNITY DEVELOPMENT			
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION
16	Construction of new Tobie Grant Recreation Center.	Completed

18	Construction of a Community and Senior Center in District 4 and 7 to fill the gap identified in the Senior Center Feasibility Study.	Not Started	
19	Identify county-owned surplus and/or tax delinquent properties for redevelopment opportunities according to policies set forth in Comprehensive Plan Text. Prior to marketing these properties, provide biannual reports to Board of Commissioners during a work session.	Not Started	

REPORT OF	REPORT OF ACCOMPLISHMENTS - PLANNING AND SUSTAINABILITY			
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION	
01	Impact Fees – Secure funds to Initiate a study to evaluate the feasibility for Impact Fees in DeKalb County.	Underway		
02	LCI Update - Candler Road LCI	Underway		
03	Land Use Amends – Establish core intensities for all activity center character areas.	Underway		
04	Land Use Amendment—North Druid Hills LCI	Underway		
05	Intergovernmental - DeKalb will coordinate with existing cities on developing amenable annexation plans.	Underway		
06	Departmental Coordination - Establish regular staff-level meetings with the following departments to share data, new plans/policies and new projects: Decide DeKalb, Community Development, Watershed, Transportation/Public Works, and Parks & Recreation	Underway		
07	Land Use Policy / Departmental Coordination - Work with the Watershed Department to investigate sewer issues that could impact future land use/development decisions and determine any needed land use policy changes.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments	
08	Land Use Policy / Departmental Coordination - Work with the Watershed Department to investigate stormwater run-off issues in neighborhoods where complaints have increased due to new development. Determine if any land use policy changes are needed.	Underway		

REPORT OF ACCOMPLISHMENTS - PLANNING AND SUSTAINABILITY			
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION
09	Economic Development / Departmental Coordination - Work with the newly formed Decide DeKalb to explore new programs/policies to redevelop, rehab or re-use declining commercial corridors.	Underway	
10	Land Use Policy/ Departmental Coordination - Work with Decide DeKalb, Community Development and the Multi-family Task Force members to explore new programs/ policies to redevelop or rehab declining/ troubled multi-family developments.	Underway	
11	Environmental Planning - Work towards preparing a Climate Resiliency Plan for the County.	Underway	
12	Demographics Projections - Coordinate with ARC research group in the reassessment of forecasting demographics.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
13	Land Use Policy - Utilize findings from #17 as well as outside research to explore ways to inform county citizens of the need for multi-family housing and propose polices to assure that multi-family developments can have a positive impact within existing neighborhoods.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
14	2050 Unified Plan - Undergo a major update to the comprehensive plan and transportation plans. This project will combine both The Comprehensive Plan and Comprehensive Transportation Plan into one document.	Underway	
15	Glenwood Columbia Plan - The purpose is to prepare a plan that provides education and a toolkit for the business community to build a consensus on how to strengthen economic development in the area.	Completed	
16	DeKalb Green Sustainability Program Description: Program to promote and support habits or activities that ensure the long-term viability and success social, economic, and environmental well-being of DeKalb County.	Underway	

NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION
17	GA Department of Community Affairs Mandate that DeKalb County update the Comprehensive Plan every 5 and 10 years.	Completed	
18	Neighborhood Registry Dashboard and App Description: Create an online source for DeKalb County neighborhoods to see profiles of demographics and current planning and transportation projects in their neighborhood.	Underway / Not Started	
19	DeKalb County Zoning Code Update Description: Update DeKalb County Ordinance, Chapter 27 Zoning	Not Started	
20	Memorial Drive Gateway project	Not Started	
21	Memorial Drive Re-Branding project	Not Started	
22	Sustainability Zoning Audit - Staff will identify improvements needed to unsure that environmental, equity, and economic needs are balanced in our zoning code.	Not Started	
23	Intergovernmental - DeKalb Elected Officials will work with GA legislative representatives (liaisons) to develop policy to regulate the process of annexations and incorporations.	Underway	
24	Develop a strategic pla for Transit-oriented Development in the I-20 East Corridor	Completed	
25	Create a central location to gather contact information on civic groups and for them to get informed.	Completed	
26	Update or Create new MALP	Underway	

REPORT OF ACCOMPLISHMENTS - CODE ENFORCEMENT			
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION
01	Code Enforcement will take a block-by-block strategic approach in delivering its inspection and enforcement services throughout the county. In addition to normal code enforcement activities, special operation teams will be deployed to conduct sweeps within commercial zones as identified in the Economic Development Strategic Plan. The commercial zone targeted sweeps will occur along commercial corridor and intersections utilizing a multidepartmental approach to blight reduction.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
02	With a focus on prevention, a comprehensive educational strategy is part of the Code Enforcement approach to blight reduction. An effective educational outreach campaign will raise awareness of property maintenance standards. The campaign will include grassroots community outreach, technology access, and community resources.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
03	Code Enforcement will coordinate with the Office of Neighborhood Empowerment to conduct capacity building training within impacted by blight. Capacity building training will help to empower residents to maintain and enhance neighborhoods to sustain a safe and aesthetically attractive environment. Code Enforcement will partner with Keep DeKalb Beautiful to focus cleanup efforts along commercial zones and to create more synergy through partnerships with neighborhood groups, businesses, and not-for-profit agencies.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
04	To qualify for abatement/demolition, properties must be structurally unsound, vacant and unsecured, have high weeds and grass, and/or have open storage of trash and debris. The properties are inspected and adjudicated resulting in a court order allowing the county to abate the nuisance.	Postponed	

REPORT OF ACCOMPLISHMENTS - CODE ENFORCEMENT			
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION
05	A multi-agency collaborative effort targeting hotels and motels with the highest levels of crime, and health, life safety and building violations. The project includes coordinated sweeps, policy changes, and relocation of extended stay residents.	Underway	
06	Focuses on the exterior of apartment complexes with specialized emphasis on housing conditions and the quality of life of the residents in multi-family dwellings. Coordinated sweeps of apartment complexes in the unincorporated area of DeKalb County are collaborative efforts that often include Code Enforcement, Police, Fire, and the Health Department.	Underway	
07	Continued effort to hold owners of foreclosed and vacant property(s) responsible for maintenance and security of the properties. Property owners are required to register the property with the county, pay a fee of \$100 or face fines up to \$1000.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments

#### 07 - REPORT OF ACCOMPLISHMENTS

REPORT OF ACCOMPLISHMENTS - POLICE			
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION
1	Construct Property Room	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
2	Construct Special Operations facility and hangar	Underway	
3	Build new Training Academy	Underway	
4	Implement Emergency Police Dispatch (EPD) software through International Academies of Emergency Dispatch (IAED): Emergency Police Dispatch (EPD) software through International Academies of Emergency Dispatch (IAED) are protocols that ensure every dispatcher, day in day out, asks consistent questions. For every call, regardless of the situation, the public and first responders in the field can rely on dispatchers gathering and distributing reliable information.	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
5	College to Cop Program: This program will provide college students interested in a career in law enforcement an internship with DeKalb County Police as a career option. The program will focus on students ages 18 to 22.	Not Started	
6	Career Exploration Program: This program will provide middle and high school students with an internship with the DeKalb County Police Department to expose them to the culture, values, and traditions of the police profession, along with helping to build better relationships and trust with law enforcement.	Not Started	

REPORT OF	REPORT OF ACCOMPLISHMENTS - PARKS AND RECREATION			
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION	
01	Implement the DeKalb Community Greenspace Plan which in part seeks to develop a partnership to acquire and preserve flood plain areas which are suitable for park, recreational, and greenway use.	Underway		
02	Continue to restore open areas of parks along Ponce de Leon in accordance with historic landscape preservation guidelines. Establish parks and open space standards based on equity of access, optimal level of service and cost effectiveness, and a positive and inviting image.	Underway		
03	Refine the county's greenway program, continue to apply for grant(s) from the Georgia Greenspace Trust Fund and complete all necessary steps to qualify for a grant. Ensure that all grants are properly spent in support of the county's greenway program.	Underway		
04	Develop 80 miles of greenways as connections to nature for people (8 miles per year).	Underway		
05	Acquire 200 acres of open space per year to provide for active and passive parks, multi-dimensional recreation facilities, and trails.	Underway		
06	Develop a program to rebuild and maintain the Decatur-Stone Mountain bicycle trail as part of countywide bicycle trail plan. Provide park-like areas as rest and exercise stops	Underway		
07	Implement a Capital Improvements Plan to construct new facilities and rehabilitate existing parks.	Completed		
08	Using creative financing, create four new community parks that provide a balance of active and passive spaces	Underway		
09	Project #1: Rainbow Park Amphitheater– An Amphitheater will be construction at Rainbow park for outdoor concerts	Completed		
10	Project #2: Tobie Grant Recreation Center– A new recreation center will be constructed at Tobie Grant Park	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments	
	Tobie Grant Park	300	departments	

#### 07 - REPORT OF ACCOMPLISHMENTS

REPORT OF	ACCOMPLISHMENTS - PARKS AI	ND RECREATION	
NUMBER	PROJECT/ACTIVITY	STATUS	STATUS EXPLANATION
11	Project #3: Hairston Community Center– A new community center will be constructed at Hairston	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
12	Project #4: NH Scott Pool– Renovation of pool at NH Scott Park	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments
13	Project #5: Glen Emerald Park– The lake and dam at Glen Emerald Park will be renovated	Not Applicable/ Discontinued	No longer a priority/ reassigned to other efforts or departments

# CHAPTER 08 COMMUNITY WORK PROGRAM

### KEY UPCOMING ACTION ITEMS

The Community Work Program identifies key activities DeKalb County will undertake during the next five years to address the Issues and Opportunities of the 2050 Comprehensive Development Plan. The table below includes a project name or description, the timeframe when the activity will be accomplished, the responsible party or department, estimated cost, and potential funding sources. These activities were identified through input and outreach to the community, stakeholders, elected or appointed officials and DeKalb County staff.

COMMUNI	TY WORK PROGRAM - PLANNING AND S	USTAINABILITY
NUMBER	PROJECT/ACTIVITY	RESPONSIBILITY (DEPARTMENT)
01	Neighborhood Registry Dashboard and App Description: Create an online source for DeKalb County neighborhoods to see profiles of demographics and current planning and transportation projects in their neighborhood.	Planning and Sustainability
02	DeKalb County Zoning Code Update Description: Update DeKalb County Ordinance, Chapter 27 Zoning	Planning and Sustainability
03	Memorial Drive Gateway project	Planning and Sustainability
04	Memorial Drive Re-Branding project	Planning and Sustainability
05	Environmental Planning - Work towards preparing a Climate Resiliency Plan for the County.	Planning and Sustainability
06	Economic Development / Departmental Coordination - Work with the Decide DeKalb to explore new programs/policies to redevelop, rehab or re-use declining commercial corridors.	Planning and Sustainability
07	Land Use Policy/ Departmental Coordination - Work with the Decide DeKalb, Community Development and the Multi-family Task Force members to explore new programs/policies to redevelop or rehab declining/troubled multi- family developments.	Planning and Sustainability

# CHAPTER 09 STAKEHOLDER & PUBLIC OUTREACH

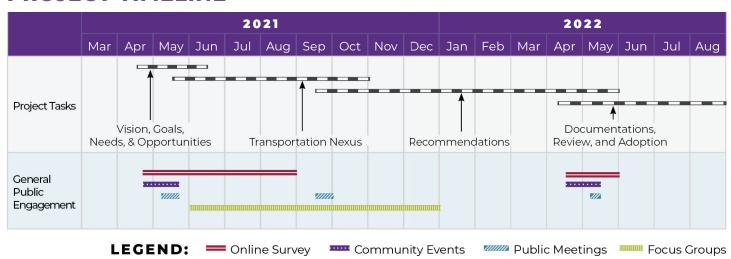

# STAKEHOLDER AND PUBLIC OUTREACH OVERVIEW

Rooted in robust and meaningful engagement, the DeKalb 2050 Unified speaks for the broad spectrum of stakeholders who live, work, and play in the County. For this process and the County's decision-making framework to be successful, it was critical that every part of DeKalb's diverse community is heard. To this end, the key objectives to educate, consult and collaborate with the community were established to ensure meaningful involvement of all stakeholders:

- ▶ Educate and involve the general public throughout the process.
- ▶ Public outreach tools were utilized to educate, listen to, and learn from the public throughout the planning process. The goal was to ensure that all stakeholders interested in and affected by the plan have an opportunity to be educated, ask questions, and provide input.
- ► Consult with staff, representatives, and agency partners to gather a broad range of ideas. This process relies upon the knowledge and experience of key municipal staff and agency partners serving the community. Individuals were recognized who interacted with and plan for DeKalb's stakeholders were a key source of information and insight throughout the process.
- ► Collaborate with stakeholders for issue identification and the creation of solutions. This process provided an opportunity for DeKalb's stakeholders to voice their needs, desires and opinions. Coordination with residents, business owners, and other members of the community provided invaluable perspective to the process that lead to solutions-based planning and implementation strategies.

These objectives guided the development of the outreach program and selection and timing of outreach activities. The timeline in Figure 1, highlights the opportunities for engagement planned throughout all phases of the project.

# PROJECT TIMELINE

The Vision, Goals, Needs, and Opportunities Phase focuses on understanding the future community vision and sets the direction and tone for the remainder of the study. It also includes a robust understanding of current conditions and needs both today and in the future. The Transportation Nexus Phase builds upon the existing conditions and needs assessment to bring the transportation and land use elements together. The Recommendations Phase commences once needs have been determined. At that point, possible project and policy recommendations can be identified. The recommendations then are prioritized after evaluation against a set of metrics built on the goals from early in the plan. During the final phase, Documentations, Review, and Adoption, the final reports will be provided to the CEO and Board of Commissioners for review and adoption.

# **OUTREACH STRATEGIES**

A combination of digital and in-person engagement tools were employed for Phase I and Phase II outreach. This allowed for broad engagement among targeted groups and the general public and promoted inclusion. Additionally, as restrictions related to COVID-19 have set limitations on public gatherings, creative and innovative public engagement strategies as alternatives to in-person meetings were a necessity

#### TARGETED STAKEHOLDER OUTREACH

Targeted stakeholder outreach allows for focused discussions to occur among entities with common interests and backgrounds. Four types of stakeholder groups were engaged during Phase I and Phase II: Standing Committees/Leadership, Transportation and Land Use Committees, Stakeholder Group Meetings, and Focus Groups.

Collectively, these groups are guiding the planning process by actively engaging at key points, championing the Unified Plan in the community by identifying and advertising public involvement opportunities and attending meetings and events; and reviewing documents and providing feedback on recommendations.

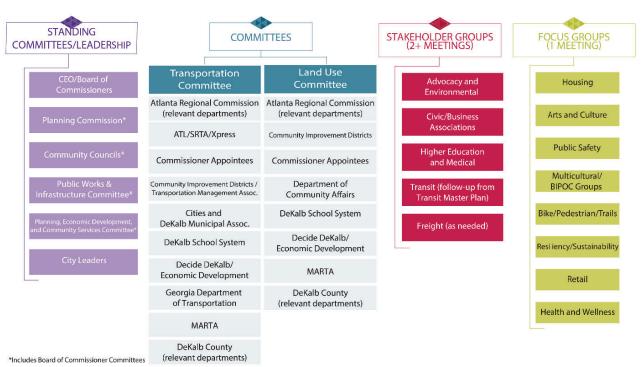

Figure 2

#### **County Leadership**

Involving elected officials and community leadership is critical to the development and implementation of the Unified Plan's recommendations. These stakeholders were engaged multiple times during Phase I and Phase II outreach.

Transportation and Land Use Committees (Stakeholder Committee)

Separate Transportation and Land Use committees have been established to focus on the two primary parts of the Unified Plan. Joint meetings with breakouts for each primary topic area were held in May 2021 and May 2022.

#### **Stakeholder Group Meetings**

These topically focused meetings include discussions among key stakeholder groups. During Phase I and Phase II discussions were hosted with the Advocacy & Environmental, Civic & Business Association, and Higher Ed & Medical stakeholder groups.

#### **Focus Groups**

Focus groups provided an opportunity for the planning team to meet with a small group of community members to talk about a specific topic area in more detail. These small, personalized engagement opportunities also assisted in reaching traditionally underrepresented populations. A total of eight focus group categories were targeted. During Phase I, sessions were hosted with the Bike/Ped, Development Community, Housing/Housing Affordability, Black Leaders, and NAACP Focus Groups. During Phase II, sessions were hosted with the Multicultural/BIPOC Groups, Public Safety, Health and Wellness, Arts/Culture, and Sustainability groups.

#### **GENERAL PUBLIC OUTREACH**

In addition to meetings with targeted groups, general public outreach was conducted during both Phase I and II. The combination of in-person, socially distanced events and virtual meetings provided a wide array of opportunities to engage with the public.

#### Intercepts

Intercepts are casual, pop-up style engagements that meet stakeholders where they are – at parks, riding transit, or shopping to name a few. In Phase I, seven (7) intercepts were staged in May and June 2021 throughout the County at Arabia Mountain, The Mall at Stonecrest, the Dunwoody Farmers Market at Brook Run Park, Doraville MARTA Transit Station, Indian Creek MARTA Transit Station, Kensington MARTA Transit Station, and the District 3 Fitness Day at Exchange Park. In Phase II, five (5) intercepts were staged in May 2022 at Tucker Days on Main Street Tucker, Good Neighbor Day at DeKalb Peachtree Airport, Gresham Park Baseball at Gresham Park, Wade Walker Park, and The Mall at Stonecrest.

#### **Public Meetings**

Public meetings provide an opportunity for more in depth engagement and additional time for the public to offer feedback. A series of three (3) virtual public meetings were held in May 2021 to officially kick off the Unified Plan, followed by five (5) virtual community charrettes held in September 2021 to gather input on potential development and transportation priorities for specific areas within the County. Three (3) virtual public meetings were held in May 2022 to gather input on draft recommendations. Meetings were webinar style in nature and began with a presentation about the project overview, schedule, ongoing engagement, and the relevant land use or transportation update for each particular meeting. There were live polling opportunities and attendees were encouraged to use the chat function to direct questions to the panelists. The remainder of the time was used for virtual breakout rooms or open discussion with an opportunity to converse with meeting facilitators about Land Use or Transportation. Lastly, there were two (2) required Public Hearings. The first public hearing took place during Board of Commissioners meeting, held on April 27, 2021, via via Zoom and was available for live stream on DCTV's webpage and DCTVChannel23.TV. The

second public hearing was held during the Board of Commissioners meeting held on July 12, 2022.

#### **Online Survey**

Online surveys provide opportunities for people to engage and provide feedback from the comfort of their home and on their own schedule. Two online surveys were launched in May of 2021 and 2022 and distributed to study area stakeholders via intercept events, virtual meetings, County Commissioner and DeKalb Relay newsletter email campaigns, and social media. A total of 1217 survey responses were received.

#### Website and Social Media

Online engagement provides a convenient way to engage with the public and to share information. The project website included project information, updates, and key engagement opportunities in addition to reports, meeting materials, and related links. DeKalb County Twitter and Facebook platforms were also leveraged to reach local residents and stakeholders. Content focused on increasing website traffic, promoting the virtual public meetings, and encouraging participation in the online surveys.

#### Collateral

Project promotion began at the onset of the planning process with the development of an informational factsheet. The document discussed what is encompassed in a Unified Plan, why DeKalb is creating one, the planning horizon and timeline, and how the public can remain involved. The factsheet was made available in English, Spanish, Chinese, Korean, Nepali, Burmese, and Hindi.

# DRAFT RECOMMENDATION REPORTS FOR PUBLIC REVIEW

The DeKalb Unified Plan team has conducted multiple rounds of community engagement including early input on needs and priorities, community charrettes in subareas of the County, and feedback on draft transportation and land use recommendations. We hosted virtual public meetings and a town hall, engaged stakeholders through focus group meetings, and met the community at parks and festivals around the County. The team is now nearing the final stages of the plan with draft documents for review by the public. Three recommendations documents will be available for public review.

Draft Comprehensive Land Use Plan (PDF, 48.3 MB)

Future Documentation Coming Soon!

#### TRANSPORTATION PROJECT INTERACTIVE MAP

Interested to learn more about some of the transportation projects that are being considered? The interactive map link below includes two maps: The first map is for projects in unincorporated DeKalb County, and the second is for projects in the cities. City projects shown here include larger investments from multiple different planning efforts.

Feedback on projects reflected in the map comes from our most recent round of input on draft recommendations. No new input is able to be provided in the map at this time, but it provides information on the projects that were discussed.

# **DOCUMENTATION OF COMMUNITY INVOLVEMENT ACTIVITIES**

## Public Hearing #1 - April 27, 2021

#### **DeKalb County Government**

Manuel J. Maloof Auditorium

Agenda - Final

**Board of Commissioners** 

Commissioner Steve Bradshaw, Presiding Officer, District 4 Comm. Lorraine Cochran-Johnson, Deputy Presiding Officer, District 7

Commissioner Robert Patrick, District 1 Commissioner Jeff Rader, District 2 Commissioner Larry Johnson, District 3 Commissioner Steve Bradshaw, District 4 Commissioner Mereda Davis Johnson, District 5 Commissioner Edward "Ted" Terry , Super District 6 Commissioner Lorraine Cochran-Johnson, Super District 7

Tuesday, April 27, 2021 9:00 AM

This meeting will be conducted via teleconference (Zoom). Simultaneous public access to the meeting will be available (1) via live stream on DCTV's webpage, and (2) on DCTVChannel23.TV. Public Comment may be submitted by sending an email no longer than one page to PublicComment@dekalbcountyga.gov which must be received between 9:00 a.m. and 10:00 a.m. on the day of the meeting. Only those emails received during the allotted time may be read aloud and broadcast. Emails received outside of the allotted time will be included in the Public Comments record for the next meeting after the receipt of those emails. The body of your email must include your first and last name, followed by your address. By submitting an email at any time for public comment, you agree to have your name, address, and email broadcast on the teleconference (Zoom) and entered in the record/minutes. Abusive, profane or derogatory language will not be permitted. The Public Comment segment will not exceed 30 minutes and individual emails will be read by the Clerk for no more than 3 minutes each. The County reserves the right, at the County's sole discretion, to (1) add your email to the record/minutes without reading any of it into the broadcast or (2) add your email to the record/minutes and read all or a portion of your email into the broadcast

#### A. INSPIRATIONAL

Community Charrette 2 - 6:00 PM September 16, 2021

#### DeKalb County District 3 - Southwest DeKalb

Attendees (23): Edward Caddell, Deborah Wilson, Dorothy Kirby, Eric Schwartz, Harry Holley Sr.,
Jacqueline Humphrey, Joscelyn O'Neil, Karla Causey, LaShun Atwaters, Lawrence Kaiser, Lemuel Horton,
Marcus Dorsey, Michael

County Staff (6): Larry Johnson (Commissioner), Sylvia Smith, Brian Brewer, Larry Washington, Laurel Corrao, Patrece Keeter

KH Staff (6): Winston Mitchell, Jon Tuley, Cristina Pastore, Eric Bosman, Brett Conn, Osaze Stigler

Additional Consultants (5): Amy Haase, Jonathan Webster, Katrina Highsmith, Michael Hightower, Rachel Staley, Nick Stephens,

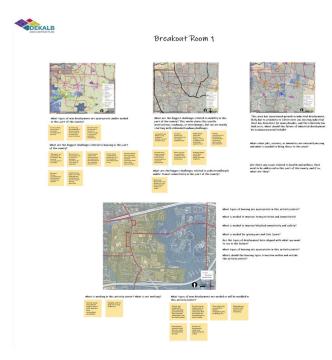

#### **Breakout Group Discussions**

After the presentation, attendees were placed into smaller breakout groups to maximize the collection of input received from the community. Each group was asked about the issues and opportunities pertaining to Land Use and Development, Transportation, and Economic and Community development in the area. The questions asked included:

- . What types of new development are appropriate and/or needed in this part of the county?
- What are the biggest challenges related to mobility in this part of the county?
- What are the biggest challenges related to pedestrian/bicycle and/or transit connectivity in this
  part of the county?
- What should the future of industrial development be in unincorporated DeKalb?
- What other jobs, services, or amenities are currently missing and what is needed to bring those to the area?
- Are there any issues related to health and wellness that need to be addressed in this part of the county, and if so, what are they?

There were also questions asked pertaining to the district activity center as follows:

- What types of housing are appropriate in this activity center?
- What is needed to improve transportation and connectivity?
- Are the types of development here aligned with what you want to see in the future?
- What is needed for greenspace and Civic Space?
- Where should the housing types transition within and outside the activity center?
- What is working in this activity center? What is not working?
- What types of new development are needed or will be needed in this activity center?
- What is needed to improve bike/ped connectivity and safety?

Community Charrette 3 - 6:00 PM September 23, 2021

#### DeKalb County District 4 - East Central DeKalb

Attendees (13): Carlotta Rozzi, Chandra Blanks, Ella Gray, Jana Johnson, Joe Jean Borowski, Joe Arrington, Lance Hammonds, Larry Coles, Sonya Bradley, Ted Rhinehart, Alesia Brooks, Carlos Perez, Kristine Hansen-Dederick,

County Staff (5): Brian Brewer, Sylvia Smith, Laurel Corrao, Patrece Keeter, Larry Washington

KH Staff (6): Jon Tuley, Cristina Pastore, Eric Bosman, Osaze Stigler, Brett Conn, Winston

Additional Consultants (5): Katrina Highsmith, Rachel Staley, Adam Ivory, Jonathan Webster, Jen Price

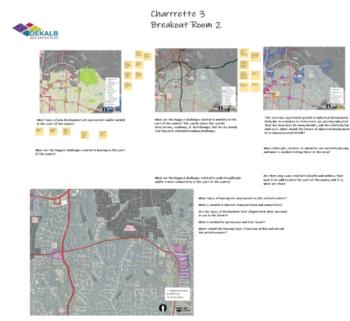

#### **Breakout Group Discussions**
